LBJ Draws Fire On Taxes, Spending

Asks $186 Billion Budget

WASHINGTON (AP) — President Johnson's call for higher taxes along with increased spending has drawn early fire from key congressional leaders. And he apparently has made no inroads into opposition to his Vietnam policies.

Johnson's statement that rejection of his 10 per cent income tax could cripple U.S. prosperity drew no applause from the assembled senators and representatives.

And in a news conference 30 minutes after the speech, House Republican Leader Gerald R. Ford said Johnson failed to make a case for the tax boost.

Chairman William Proxmire, D-Wis., of the Senate-House Economic Committee called it "a serious economic mistake" for the President to seek a tax boost without slashing such programs as public works and space.

Sen. Eugene J. McCarthy, D-Minn., said of the speech:

"We still are told the nation can wage and win two wars—the one in Vietnam and the war on poverty. We are waging one, but not winning either."

Johnson's brief remarks on Vietnam peace prospects—in which he reiterated U.S. demands for a North Vietnamese pledge of a curb on military action if U.S. bombing is to be halted—met with stony silence on the part of two of his severest war policy critics, Sens. J.W. Fulbright, D-Ark., and Robert F. Kennedy, D-N.Y.

As anticipated, Republicans found Johnson's message politically oriented.

Sen. Jacob K. Javits, R-N.Y., said the President made the State of the Union "sound like the state of the campaign." Sen. Hugh Scott, R-Pa., said Johnson "poured forth a cornucopia of promises" but failed to establish legislative priorities.

Johnson said it would take a $10.4 billion boost in spending to finance on-going programs in reporting the fiscal 1969 budget would reach a record $186 billion—with a built-in $8 billion deficit sure to go higher if the tax boost isn't approved.

Only when he called for federal action to aid cities and states in combatting crime and to halt "'mail order murder" through gun-control legislation did the President get enthusiastic reaction from the lawmakers during his 51-minute, nationally televised address.

Many members of Congress did not attend the joint session.

Johnson's renewed demand that North Vietnam respond with military restraint to a halt in U.S. bombing found such war-policy critics as Sens. J.W. Fulbright, D-Ark., and Robert F. Kennedy, D-N.Y., responding with silence amid applause.

In another major domestic proposal, the President suggested a 10-year program to provide six million new housing units for low and middle-income families.

He prefaced his domestic proposals, which included calls for new prenatal care and consumer protection programs, by saying:

"In our cities last summer, we saw how wide is the gulf for some Americans between the premise and the reality of our society.

"We cannot change all of this in a day ... The issue is not whether we can change this; the issue is whether we will change this.

"I know we can. I believe we will."

Johnson's estimate that the Southeast Asia conflict will cost $25 billion in the fiscal year beginning July 1 was immediately disputed by Rep. Melvin R. Laird of Wisconsin, chairman of the House Republican conference. Laird said the cost will be nearer $30 billion.

Asking for 100 additional FBI agents, the president predicted the nation will change frustrations into achievements to alleviate the despair in "the cities where the fires of disorder burned last summer.'"

"We can make progress only by attacking the causes of violence and only where there is civil order founded on justice," he said.

The President failed to pack the House. On the floor there were 29 vacant seats despite the hurried movement of aides and pages to fill the yawning spaces.

Of the 100 Senators only 53 were present, including 30 of the 64 Democrats and 23 of the 36 Republicans. Of the 435 House members, only about 250 were present. Some members may possibly have decided to listen and view the speech on televi-

Curb Service

A Charleston, W. Va., truck driver received curb service about 8:15 this morning when a fire in the brake lining of his truck was extinguished in front of the Newell fire station.

In Hope Of Speedy Passage

Senate Unit To Propose Two Redistricting Bills

COLUMBUS, Ohio (AP)— A Senate committee planned to recommend two congressional redistricting bills today in the hope majority Republicans could agree on one or a combination of the two for speedy passage.

Sen. Robin T. Turner R-14 Marion, chairman of the Elections, Commerce, and Labor Committee, said party caucuses were on tap to determine what kind of a measure would be sent to the floor.

The legislature faces a federal court deadline of one week from Friday to even up Ohio's 24 congressional districts in line with U.S. Supreme Court requirements. Whatever bill is passed by the Senate still must go through the House and then be approved by the U.S. District Court in Cleveland.

Meanwhile, minority Democrats — busy all week on a plan of their own — said it would be introduced today, but it was lost on the basis of time alone. Minority leaders announced plans, however, to place it before the court on their own.

Senate majority leader Theodore M. Gray R-3 Miami said

U.S. Troops Slay Cong Commander

Ambush One Of 5 Scattered Clashes; 7 Americans Killed

SAIGON (AP) — U.S. paratroopers lying in ambush along a trail killed a Viet Cong battalion commander from a regiment which overran a South Vietnamese district town two weeks ago, U.S. headquarters announced today.

The ambush was one of five clashes Wednesday, scattered from below Saigon to the demilitarized zone, in which U.S. forces reported killing 119 Communist soldiers at a cost of seven Amercans killed and 29 wounded.

A U.S. communique termed the paratroopers' ambush "vengeance on the Dong Hai Regiment which attacked the district town of Tan Uyen in the early morning hours of 6 January."

An ambush squad from the 187th Airborne Infantry, which arrived in South Vietnam last month, caught Lam Hiep, 28-year-old commander of the Dong Hai Regiment's D800 Battalion and two other Viet Cong on a trail 25 miles north of Saigon, a U.S. spokesman said.

The paratroopers killed Hiep and another Viet Cong, but the third man apparently escaped. In an exchange of fire, one American was killed and one wounded.

A pouch full of documents, a Russian pistol, a map and a compass were found on Hiep's body. The documents disclosed his identity and showed he had commanded the battalion since April 1966 at least.

Guatemala Gunmen Kill Wealthy Landowner, 77

GUATEMALA (AP) — Defying a sweeping police roundup to check terrorism in Guatemala, gunmen killed a wealthy landowner Wednesday, one day after the slaying of two U.S. military officers.

Alfonso Alejos de la Cerda, 77, was machine-gunned in a suburb of the capital, and his driver was wounded. He was an uncle of Roberto Alejos, a presidential candidate in 1962, and of Carlos Alejos, a former ambassador to Washington.

Havana Radio, reporting the assassination, said another nephew "gave his farm for the training of Cuban counterrevolutionaries and mercenaries for the Bay of Pigs invasion in 1961."

Alejos was shot a day after assassins in a speeding car machine-gunned U.S. Army Col. John D. Webber Jr., 47, Houston, Tex., head of the U.S. military advisory group in Guatemala, and Lt. Cmdr. Ernest A. Munro, 40, Rockland, Maine, head of the U.S. naval section.

The Rebel Armed Forces, a Castroite group known as FAR, said it assassinated the Americans in retalistion for leftist guerrillas killed by Guatemalan army groups trained by the U.S military mission.

Police made a large number of arrests as they searched for the assassins of the two U.S. officers and other victims of the terrorists.

Military police combed through homes and offices and set up roadblocks. Entire blocks were sealed off by police armed with machine guns. Cars were stopped at checkpoints and searched for arms.

Marine Sgt. Harry L. Greene, 41, of Omaha, Neb., was wounded with two U.S. officers and was reported in fair condition. Army Sgt. Maj. John R. Forster, 42, of Seattle, Wash., was

Officials See Leveling Off

U.S. Viet Commitment Near Men, Money Ceiling

WASHINGTON (AP) — Administration officials say the U.S. commitment to the Vietnam war may be close to the high water mark in men and money.

They said they anticipate "a leveling off of both money and forces in Southeast Asia in the coming year."

This could mean U.S. troop strength in Vietnam will stabilize near the 525,000-man mark, although it does not rule out further reinforcements if conditions dictate.

U.S. military forces in Vietnam now total 486,000 men, with the balance of the 525,000 due there within the next few months.

Discussing President Johnson's upcoming budget, these officials told newsmen they calculate that about $25.75 billion will be spent during the fiscal year to prosecute the Vietnam war—a $1.2 billion increase over this year.

All told, Vietnam war costs will account for nearly one-third of the $77.2 billion defense budget Johnson will send to Con-

Police made a large number of arrests as they searched for the assassins of the two U.S. officers and other victims of the terrorists.

Military police combed through homes and offices and set up roadblocks. Entire blocks were sealed off by police armed with machine guns. Cars were stopped at checkpoints and searched for arms.

Marine Sgt. Harry L. Greene, 41, of Omaha, Neb., was wounded with two U.S. officers and was reported in fair condition. Army Sgt. Maj. John R. Forster, 42, of Seattle, Wash., was

Officials See Leveling Off

U.S. Viet Commitment Near Men, Money Ceiling

WASHINGTON (AP) — Administration officials say the U.S. commitment to the Vietnam war may be close to the high water mark in men and money.

They said they anticipate "a leveling off of both money and forces in Southeast Asia in the coming year."

This could mean U.S. troop strength in Vietnam will stabilize near the 525,000-man mark, although it does not rule out further reinforcements if conditions dictate.

U.S. military forces in Vietnam now total 486,000 men, with the balance of the 525,000 due there within the next few months.

Discussing President Johnson's upcoming budget, these officials told newsmen they calculate that about $25.75 billion will be spent during the fiscal year to prosecute the Vietnam war—a $1.2 billion increase over this year.

All told, Vietnam war costs will account for nearly one-third of the $77.2 billion defense budget Johnson will send to Con-

—:—

CAMPBELL, 225-pound former University of Minnesota player who later served with the Minnesota Vikings and the Baltimore Colts, is the Steeler player representative to the National Football Players Association.

He outlined the benefits obtained by the original association for players and their families and reviewed the recent reorganization of the group as a union.

Referring to the meeting in Florida at which the action was taken, he said, "We had a mandate from the players." He said efforts are being directed at collective bargaining for more benefits, saying the gridders were dissatisfied with the bargaining before.

"We intend to use power—effectively and wisely—for our players." Some of the programs they hope to get include a higher minimum salary, extra pay for exhibition games, elimination of fines or penalties unless a contract is signed, a $5 million pension fund, and a boost in a share of the post - season games.

"We probably won't get all these, but we are optimistic."

—:—

ASKED if he believed the Green Bay Packers, for example, would be morally right to strike before a championship game, Campbell answered, "No. The players do not want to strike; they feel they have an obligation to the fans, and this would be a last resort thing. I personally think the chances of a strike are almost nil."

Campbell answered such questions as the three hardest men to tackle "(Ernie Green, Leroy Kelly and Jimmy Brown"), the best coach he had served under ("Norm Van Brocklin"), what he thought of the 1968 Super Bowl ("It stank"), and what he wanted to do after his grid career was over ("Walk properly"). He added to the last that he was in an investment concern and probably would continue, although he might consider a coaching position.

Daniel Davis of the Chester First Christian Church gave the invocation. Bill Glass was dinner chairman.

Atlantic Gale Endangers 16 On Freighter

NEW YORK (AP) — Sixteen crewmen on a small Dutch freighter battled to stay afloat today as their foundering vessel was slammed by huge waves and high winds in a mid-Atlantic gale.

The Coast Guard reported the captain of the 239-foot freighter decided at dawn today to postpone a planned second attempt to abandon ship as snow squalls struck lowering visibility.

Although listing so badly her deck was awash on the port side, the ship was reported riding better as winds moderated to about 35 knots.

One crewman was reported seriously injured with a head wound.

An attempt to abandon ship Wednesday resulted in the loss of two life rafts and a dinghy to the 25-foot seas and 60-knot winds leaving only two larger life boats aboard the freighter.

Two larger merchant ships were standing by and a Coast Guard C130 aircraft was circling overhead as the Ocean Sprinter labored along at about 4 knots some 1,300 miles east of here.

The 311-foot Coast Guard cutter Absecon was headed toward the scene but because of the gale was not expected to arrive before noon today.

The Ocean Sprinter's last port of call was Summerside, Prince Edward Islands, Canada.

The strickern freighter is owned by N.V. Scheepvaart Maats Vrieexpress and its home port is Rotterdam.

In other action, a contract was approved with the Bauman Office Supplies Co. of Beaver Falls for $1,426 in supplies.

The staff of the county's Mental Health and Retardation office was granted permission to attend a conference at Harrisburg Feb. 16-17.

Some Fellow Democrats 'Frigid'

Congress Cool To LBJ's Tax Hike, Spending Bid

WASHINGTON (AP) — President Johnson's State of the Union remarks on peace prospects drew a frigid response from some fellow Democrats and other initial congressional reaction pointed to continued hostility toward increases in taxes and spending.

Johnson told Congress Wednesday night that if a basis for peace talks can be established with North Vietnam his hope would be for a complete cease-fire as the first order of business.

His brief remarks on the prospects for peace drew applause —but not from Democratic Sens. Robert F. Kennedy of New York and J. William Fulbright of Arkansas. They are two leading critics of Johnson's war policy.

Sen. Eugene J. McCarthy of Minnesota, seeking the Democratic presidential nomination on a platform of opposition to Johnson's Vietnam policies, said: "We still are told the nation can wage and win two wars —the one in Vietnam and the war on poverty. We are waging one, but not winning either."

The President's renewed appeal for a 10 per cent income tax surcharge, coupled with his announcement that spending would be increased by some $10.4 billion, drew criticism or opposition from such prominent Democrats as Sen. William Proxmire, chairman of the joint Economic Committee and Sen. Russell B. Long, chairman of the Senate Finance Committee. Republicans joined in the attack.

But other Democrats came to the President's support, including Speaker John W. McCormack and House Democratic Leader Carl Albert.

The key congressman on the tax issue, Chairman Wilbur D. Mills, of the House Ways and Means Committee, declined comment, saying he wanted to see Johnson's spending figures first. The budget is due for presentation to Congress by Jan. 29.

Mills has been maintaining that unless there is a significant spending cut he would not go along with a tax hike.

Long, Mills' counterpart in the Senate, said he's still opposed to a surtax.

Proxmire said he was "disappointed the President failed to recommend sharp reductions in public works and space spending, and that he continues to press with such force for a big increase in taxes. This is a serious economic mistake."

Proxmire said he did "welcome the President's decision to call for the removal of the gold cover requirement that will free more than $10 billion in gold to meet our international obligations." Chairman Wright Patman of the House Banking Committee also endorsed this proposal.

Chairman George H. Mahon of the House Appropriations Committee, a Democrat, generally endorsed Johnson's speech. But he added that "in all but the imperative necessities, we ought to close our eyes to each and every increase requested over the present level."

The senior Republican on Mahon's committee, Rep. Frank T. Bow of Ohio, said Johnson's budget figures are too high. He said he would begin a campaign at once to cut spending by $8 billion. Bow led a successful drive last year to cut spending by about $4.1 billion.

House Republican Leader Gerald R. Ford also indicated there will be a strong GOP push for spending cuts rather than support for a tax boost.

CAMPBELL, 225-pound former University of Minnesota player who later served with the Minnesota Vikings and the Baltimore Colts, is the Steeler player representative to the National Football Players Association.

He outlined the benefits obtained by the original association for players and their families and reviewed the recent reorganization of the group as a union.

Referring to the meeting in Florida at which the action was taken, he said, "We had a mandate from the players." He said efforts are being directed at collective bargaining for more benefits, saying the gridders were dissatisfied with the bargaining before.

"We intend to use power—effectively and wisely—for our players." Some of the programs they hope to get include a higher minimum salary, extra pay for exhibition games, elimination of fines or penalties unless a contract is signed, a $5 million pension fund, and a boost in a share of the post - season games.

"We probably won't get all these, but we are optimistic."

—:—

ASKED if he believed the Green Bay Packers, for example, would be morally right to strike before a championship game, Campbell answered, "No. The players do not want to strike; they feel they have an obligation to the fans, and this would be a last resort thing. I personally think the chances of a strike are almost nil."

Campbell answered such questions as the three hardest men to tackle "(Ernie Green, Leroy Kelly and Jimmy Brown"), the best coach he had served under ("Norm Van Brocklin"), what he thought of the 1968 Super Bowl ("It stank"), and what he wanted to do after his grid career was over ("Walk properly"). He added to the last that he was in an investment concern and probably would continue, although he might consider a coaching position.

Daniel Davis of the Chester First Christian Church gave the invocation. Bill Glass was dinner chairman.

Some Fellow Democrats 'Frigid'

Congress Cool To LBJ's Tax Hike, Spending Bid

WASHINGTON (AP) — President Johnson's State of the Union remarks on peace prospects drew a frigid response from some fellow Democrats and other initial congressional reaction pointed to continued hostility toward increases in taxes and spending.

Johnson told Congress Wednesday night that if a basis for peace talks can be established with North Vietnam his hope would be for a complete cease-fire as the first order of business.

His brief remarks on the prospects for peace drew applause —but not from Democratic Sens. Robert F. Kennedy of New York and J. William Fulbright of Arkansas. They are two leading critics of Johnson's war policy.

Sen. Eugene J. McCarthy of Minnesota, seeking the Democratic presidential nomination on a platform of opposition to Johnson's Vietnam policies, said: "We still are told the nation can wage and win two wars —the one in Vietnam and the war on poverty. We are waging one, but not winning either."

The President's renewed appeal for a 10 per cent income tax surcharge, coupled with his announcement that spending would be increased by some $10.4 billion, drew criticism or opposition from such prominent Democrats as Sen. William Proxmire, chairman of the Joint Economic Committee and Sen. Russell B. Long, chairman of the Senate Finance Committee. Republicans joined in the attack.

But other Democrats came to the President's support, including Speaker John W. McCormack and House Democratic Leader Carl Albert.

The key congressman on the tax issue, Chairman Wilbur D. Mills, of the House Ways and Means Committee, declined comment, saying he wanted to see Johnson's spending figures first. The budget is due for presentation to Congress by Jan. 29.

Mills has been maintaining that unless there is a significant spending cut he would not go along with a tax hike.

Long, Mills' counterpart in the Senate, said he's still opposed to a surtax.

Proxmire said he was "disappointed the President failed to recommend sharp reductions in public works and space spending, and that he continues to press with such force for a big increase in taxes. This is a serious economic mistake."

Proxmire said he did "welcome the President's decision to call for the removal of the gold cover requirement that will free more than $10 billion in gold to meet our international obligations." Chairman Wright Patman of the House Banking Committee also endorsed this proposal.

Atlantic Gale Endangers 16 On Freighter

NEW YORK (AP) — Sixteen crewmen on a small Dutch freighter battled to stay afloat today as their foundering vessel was slammed by huge waves and high winds in a mid-Atlantic gale.

The Coast Guard reported the captain of the 239-foot freighter decided at dawn today to postpone a planned second attempt to abandon ship as snow squalls struck lowering visibility.

Although listing so badly her deck was awash on the port side, the ship was reported riding better as winds moderated to about 35 knots.

One crewman was reported seriously injured with a head wound.

An attempt to abandon ship Wednesday resulted in the loss of two life rafts and a dinghy to the 25-foot seas and 60-knot winds leaving only two larger life boats aboard the freighter.

Two larger merchant ships were standing by and a Coast Guard C130 aircraft was circling overhead as the Ocean Sprinter labored along at about 4 knots some 1,300 miles east of here.

The 311-foot Coast Guard cutter Absecon was headed toward the scene but because of the gale was not expected to arrive before noon today.

The Ocean Sprinter's last port of call was Summerside, Prince Edward Islands, Canada.

The strickern freighter is owned by N.V. Scheepvaart Maats Vrieexpress and its home port is Rotterdam.

Immeasurable Value

Some of the intangible values a man can represent to his community are demonstrated annually in the Jaycee Civic Service and Distinguished Service Awards.

In the case of Don Eckert, who worked for and helped implement the city's comprehensive plan for ten years, who has been a key figure in Red Cross, church, business groups and other areas, no list can enumerate the people he has assisted or the advances made in East Liverpool or to be made as a result of his guidance.

In the case of Jack Vodrey, who raised money for college-bound youths, who has stirred interest in public education, who has lent his legal talents to the Community Improvement Corp. and other civic endeavors, no meter can measure the full accomplishment or the enlarged potential for which he is responsible.

In the case of both men, much of their worth to fellow townspeople will have greater appreciation in the future, not only for what they have done to earn last night's awards, but for what they are still capable and for what this community expects in the years to come.

These two own characteristics Tennyson referred to:

Some sense of duty, something of a faith,
Some reverence for the laws ourselves have made,
Some patient force to change them when we will,
Some civic manhood firm against the crowd.

All For Kicks – and Tragedy

Federal health officials are following up a Pennsylvania LSD tragedy with a nationwide survey to learn how many people may have lost their eyesight after using the hallucinogen.

Six students in a Pennsylvania college, it is reported, went permanently blind after lying in the sun with their eyes open during a "trip" on LSD. They did not know what they were doing, it seems. The drug had robbed them of judgment, which is its best-known effect.

What is the proper attitude to take about the tragic things that can happen to people who seek thrills in this way? Surely, they have no claim on pity or sympathy. They know what they were doing. They know the risk. There is no secret about LSD and other substances currently being used for "kicks."

They are in the same category with bad booze a generation ago when people went after "kicks" in a bottle. They sometimes went blind. Occasionally, they died. Customarily, they were extremely sick. Did they deserve pity? Did they get sympathy?

No. They were incidental victims of an experiment with prohibition that turned out disastrously, but no one felt sorry for them. They knew what they were doing. When they made fools of themselves, they had only themselves to blame. No one made them drink.

They would have made fools of themselves in any event, even without bad booze. LSD users and other assorted dopies today would be making fools of themselves in some other way if the currently fashionable substances were not available.

Aside from the probability many of them will end up as welfare clients and be a burden on society, the public couldn't care—or cry—less about them.

Unionism's Sinister Shadow

The collapse of a slick scheme by the Teamsters Union to take over the newspaper industry in Detroit would be laughable if it were not for sinister ramifications involved in the case.

The humor in the incident springs from the fact a newspaper distributing firm organized by some members of the Teamsters, striking the Detroit News, toppled because of a fat contract negotiated with the Teamsters Union. The company folded because it couldn't meet the economic terms of its contract.

That's poetic justice.

The sorry episode began when the Teamsters struck the Detroit News and the newspaper suspended operations last Nov. 16. The Detroit Free Press was closed down the following day.

Metropolitan Distributors, the company formed by strikers, was established to distribute copies of the Detroit Daily Express, one of the three interim papers that sprang up after Detroit's two dailies closed down.

Failure of the distributing company signals demise of the interim newspapers and the end of another power play by the Teamsters.

It won't be the last. When a union gains enough power to hold legitimate enterprise at bay with a strike while it sets up its own business, it has become too powerful.

The Detroit venture is a perfect example of how absolute power corrupts absolutely.

The power pendulum has swung a long way from the time of seven-day work weeks and peanut pay. Unionism's abuse of its power is hastening the reverse swing of the pendulum.

Unions decry the growing demand for control of their irresponsible activities. It is stunts like the one in Detroit that clearly indicate the resolute direction of unionism.

No More Lefties

Leftest Greek political leader Andreas Papandreou, recently released from prison by the military junta, apparently is headed for the United States.

Papandreou, son of the former Greek premier, became an American citizen after coming to this country in 1940, and after taking a doctorate in economics at Harvard got a commission in the U. S. Navy.

After the war, he taught at several American universities before returning to Greece in 1961 and resuming his Greek citizenship in 1964. His wife and children are still U. S. citizens.

Upon hs arrival in Paris, Papandreou said he wasn't sure about his future plans and could not say indefinitely whether he would go back to teaching.

All this country needs is another leftist university professor.

Letter From Max

Dear Truman Twill:

Did you see those year-end stories from abroad in which foreign observers analyzed the United States and offered advice to us?

What a laugh!

The observers included a Briton, a German, a Frenchman and a Japanese. Can you imagine those guys trying to tell us how to run a country? It is like an apprentice trying to tell a journeyman how to do his job.

That is the price we have to pay for success. Everybody tries to tell the big star how to play the game.

Here we are, the strongest, richest, best and most-envied nation the world has ever known, and they are telling us what bad shape we are in and what we ought to do about it.

Here are a few things they accuse us of: "plagued by a malady," "irritated and sorrowful," "uneasiness," "conspiring," "crime, "marijuana," "anguish," "helplessness," "frustrated and bewildered," "beset by dark clouds," "social anxiety" and "incapable of discerning evils."

What they forgot to say is that we also are generous, courteous, considerate, gentle, master politicians in the best sense, industrious, brave, loyal and conscientious.

The United States isn't first in area or population among countries of the world, but it is first in almost everything else: steel, automobiles, television, telephones, bathrooms, electricity and you name it.

Symphony orchestras and theaters dot this nation, as do museums and universities.

Twill, do you know there are countries that don't even have black and white television, let alone color television? How can they manage?

Our colleges and medical staffs are jammed with scholars from foreign lands who come here to bask in our intellectual climate. And when it comes to technology, nobody can touch us.

Remember how Khrushchev came all the way from Moscow to stand in one of our supermarkets with his eyes bulging in disbelief at the wonder of it all?

Then, with all the glories this country has, along comes a British anatomy professor who taught in the U.S. who says, "Anyone from the universities thinking of migrating to the United States should consider the move carefully." Indeed!

People all over the world are beating on the doors of our consulates trying to get permission to come here. The reasons are obvious.

Other countries should set their own houses in order before trying to tell us how to improve on the best.

Twill, take my advice: Don't migrate.

Faithfully yours,
MAX

TRUMAN TWILL

Purely Personal Observations

Pictures of earthquake damage in Sicily recall the rock-strewn landscapes we saw there on our visit two years ago and the fact the airport for Palermo is 20 miles away because that is the closest place there is enough flat land to carve a runway.

Sen. Eugene McCarthy now knows how one-time Sen. Barry Goldwater felt when he was bucking the political tide in 1964. "In your heart you know he's right," said the Goldwaterites, who knew that in their voting booths voters would record contrary opinion.

Rezsoe Seres, whose "Gloomy Sunday" was blamed for causing suicides in the 1930s, finally took his own life in Budapest. The song was banned in many places, including some places in the U.S.A., because it not only was sad but suggested the act its composer finally committed.

When I had shoveled an hour clearing the snow-plow windrow from the entrance to our country lane, a road scraper filled it up again to my pants pockets with me standing there in mute protest. I give the operator of the scraper credit. He never looked at me — a small figure of fist-brandishing indignation standing helplessly at the side of the road.

I find no validity in money comparisons that do not take into account the relative value of the money being compared, just as I find no validity in economic comparisons not weighed for other variables, such as population growth, changes in the times, new ideas and the like.

I was pleased when the Smothers Brothers agreed with my proposition that the logical place to cut down on tourism is the $26 billion it costs a year to keep upward of half a million Americans in Vietnam.

Back To Work

VICTOR RIESEL

Wirtz Hits Negro Demands

WASHINGTON — The federal government will not insist that there be specific quotas of Negroes among the highly paid work forces now remodeling America at the current rate of $76.5 billion this fiscal year.

Victor Riesel

The government will not insist that in every step of every job in every phase of building and construction there shall be representations of minorities — Negroes, Puerto Ricans, Mexican-Americans, Indians or Orientals.

Through the mellifluous words of the Administration's most winsome orator, Labor Secretary Willard Wirtz, the message is that the government will recognize that "whatever rules we devise by statute, regulation, by-laws and contracts (they) have to be sufficiently flexible that they will reflect the fact of life, which is that any of those things are only means and not ends that have to be adopted to particular situations."

Mr. Wirtz has said that the regulations covering the hiring of Negroes and their entry into the skilled AFL-CIO unions must be administered "on what is a case by case and person by person basis."

Mr. Wirtz, one of the most agile and intellectual of the President's cabinet, will need all his philosophical and persuasive powers to keep from being ground down in his effort to avert Negro direct action, warm weather demonstrations, picketing and counter mass picketing by the AFL-CIO, and political flagellation by both sides.

Talking recently to leaders of the 18-union AFL-CIO Building and Construction Trades Dept.'s 3.5 million members, Wirtz startled some of them who long have considered him "the enemy."

"I WANT TO MAKE IT dead clear," said he, "that I think it is an error to approach this problem or any other aspect of this problem in terms that mean a number of people, one or more Negroes or whites or anybody else, as being required on every single situation. It's a requirement for too much; it's a requirement for two little. It's a requirement that is cast in an entirely wrong term. It involves quotas in one form or another and as far as I am concerned — and I know I speak for you — that is simply the wrong approach and we have got to find a better one."

And he will try. On or about Jan. 16, the Labor Secretary and a Building and Construction Trades Dept. committee will sit and talk about the flash fire issue of putting Negroes on all federal construction projects where the contract is for $1 million or more.

Just how short the fuse is at the NAACP has not yet been determined. Its executive director, Roy Wilkins, is a moderate. But at the AFL-CIO convention he challenged the nation's labor leaders right on the convention floor to open the construction jobs to tens of thusands of Negroes.

Last June he alerted the NAACP's 1,500 branches tc make an inventory of skilled Negro workers in each region. He warned that all public construction would be stopped unless many Negroes were hired. His stormier colleague, Herb Hill, the Assn.'s labor secretary, said tersely: "No Negroes, no work."

Last November the Building and Construction union leaders invited Wirtz to talk to their convention. He demurred, saying he had agreed to address the big AFL-CIO gathering a few days later.

BUT HE FINALLY AGREED to say a few words of greeting to the Building union convention. Then, according to one union chief, "he came down and sensed the unrest among us and the Metal Trades Dept. (AFL-CIO)."

"He conferred with us privately both before and after the full speech he finally delivered to our convention (not to be mistaken for the National AFL-CIO Seventh Convention a week later)."

"Our position is," said a building craft union spokesman, "that if the Negro organizations give us a breather we will find the way to bring in qualified Negro journeymen and go right into the slum areas and train young disadvantaged Negroes for the trades. But we can't have amateurs rebuilding our cities, doing work requiring high skills under modern technology and we told Wirtz that."

What also has disturbed the labor leaders is the sentiment in some judicial circles as well as the regulations promulgated by labor department bureaus which insist that Negroes be hired even if they are not union members.

It was during his unreported speech at Bal Harbour at the end of November that Wirtz attempted to contain all the resentments. It was then that he pledged there would be no quotas — saying that though such action had been taken by the government (his own Department of Labor) in Cleveland and Philadelpha, this was due to the exigencies there at the moment.

"As far as federal contract compliance," Wirtz said, "I just want to say squarely, in the simplest possible way, that I think any rule which provides that there must be one or any other number of people of one or any other race in every craft, on every job, is wrong and it won't work. It's a wrong approach to this whole problem . . ."

He urged they talk things out as new answers and regulations are developed. He told them that they never have balked at cooperating on the racial front when it was all discussed and developed in advance.

"You rightfully resent it (when the view is expressed) that the building and construction trades are opposed to this kind of program, civil rights or another. So far as I know, there has never been opposition to a program which has been talked through with you in advance."

So they will talk it all out shortly. He has said that the answer the government has worked out, insisting on one rigid way of obtaining minority jobs, is by no means right, at least as a permanent answer.

The NAACP says the government just has not been tough enough. The labor leaders say the government has been too tough, too fast, too inexperienced.

It looks like a warm January.

DAVID LAWRENCE

Viet Calls Shots

Probably the most significant development in the Vietnam War in a long time is a speech just delivered by the president of the South Vietnam Republic, in which he criticized the United States for assuming initiative in negotiating peace in Vietnam. He feels this is the function of his own government.

President Nguyen Van Thieu is right from the standpoint of international law. The United States has sent its troops to the battle region at the request of the South Vietnamese government and is, therefore, in the status of an ally which may consult with other allies and with the government at Saigon.

But the final decision as to whether North Vietnam shall continue to be bombed and whether armed forces should be sent into Cambodia in "hot pursuit" rests with the South Vietnamese government.

The South Vietnam president declared any unconditional halting of the bombing of Vietnam is "preposterous" and "absurd" and urged, instead, that every pressure be exerted against North Vietnam and the Viet Cong, unless they stop aggression.

The speech, delivered to South Vietnamese newspaper editors, is said to reflect a fear among officials of the Saigon government — particularly the military men — that President Johnson may conclude a peace agreement with the Communists which will be unsatisfactory to the South Vietnam government.

This is the first time that even what may prove to be a mere difference of opinion, rather than a rift, between the United States and the new government in South Vietnam has appeared. It could have constructive results, because too many people in the United States, particularly in Congress, have been talking as if the United States is in complete control of the South Vietnam government and as if the latter would do as bidden by the Washington administration.

This naturally produces resentment and causes uneasiness in South Vietnam.

It is possible President Johnson may not be displeased at this utterance by President Thieu. In a sense, it makes clear that the initiative in peace negotiations is not entirely within the authority of the United States, and hence the responsibility for continuance of the war cannot rightfully be placed upon Washington.

The government of South Vietnam is fighting to preserve its independence and repel the aggressor forces of North Vietnam.

It cannot afford any peace arrangement which might weaken the South Vietnam government and possibly lead to domination and a takeover by North Vietnam. President Thieu issued a plain warning when he said:

"The Republic of Vietnam most naturally should have the central role in any development relating to the events in Vietnam."

As for Cambodia, the South Vietnam president was emphatic that Communists should not be permitted to use Cambodian territory as a sanctuary from which to launch attacks.

He declared there have been consistent violations of Cambodian neutrality by the Viet Cong and that the Saigon government reserves the right to pursue guerrillas into Cambodia.

After President Thieu's speech was reported in the American press, Secretary of State Rusk issued a statement reiterating the basic principle that "the South Vietnamese people must determine their own future without external interference."

He said the United States stands by its declaration of Dec. 8 that "imposition of any coalition government would be at variance with this principle."

President Johnson has made the same point before. But evidently there are individuals inside and outside Congress, as well as organizations which seem to think the President of the United States can push a button and end the Vietnam War at will.

The Johnson administration has indicated plainly it will not make peace in Vietnam unless terms satisfactory to the South Vietnamese are obtained.

Immeasurable Value

Some of the intangible values a man can represent to his community are demonstrated annually in the Jaycee Civic Service and Distinguished Service Awards.

In the case of Don Eckert, who worked for and helped implement the city's comprehensive plan for ten years, who has been a key figure in Red Cross, church, business groups and other areas, no list can enumerate the people he has assisted or the advances made in East Liverpool or to be made as a result of his guidance.

In the case of Jack Vodrey, who raised money for college-bound youths, who has stirred interest in public education, who has lent his legal talents to the Community Improvement Corp. and other civic endeavors, no meter can measure the full accomplishment or the enlarged potential for which he is responsible.

In the case of both men, much of their worth to fellow townspeople will have greater appreciation in the future, not only for what they have done to earn last night's awards, but for what they are still capable and for what this community expects in the years to come.

These two own characteristics Tennyson referred to:

Some sense of duty, something of a faith,
Some reverence for the laws ourselves have made,
Some patient force to change them when we will,
Some civic manhood firm against the crowd.

All For Kicks – and Tragedy

Federal health officials are following up a Pennsylvania LSD tragedy with a nationwide survey to learn how many people may have lost their eyesight after using the hallucinogen.

Six students in a Pennsylvania college, it is reported, went permanently blind after lying in the sun with their eyes open during a "trip" on LSD. They did not know what they were doing, it seems. The drug had robbed them of judgment, which is its best-known effect.

What is the proper attitude to take about the tragic things that can happen to people who seek thrills in this way? Surely, they have no claim on pity or sympathy. They know what they were doing. They know the risk. There is no secret about LSD and other substances currently being used for "kicks."

They are in the same category with bad booze a generation ago when people went after "kicks" in a bottle. They sometimes went blind. Occasionally, they died. Customarily, they were extremely sick. Did they deserve pity? Did they get sympathy?

No. They were incidental victims of an experiment with prohibition that turned out disastrously, but no one felt sorry for them. They knew what they were doing. When they made fools of themselves, they had only themselves to blame. No one made them drink.

They would have made fools of themselves in any event, even without bad booze. LSD users and other assorted dopies today would be making fools of themselves in some other way if the currently fashionable substances were not available.

Aside from the probability many of them will end up as welfare clients and be a burden on society, the public couldn't care—or cry—less about them.

Unionism's Sinister Shadow

The collapse of a slick scheme by the Teamsters Union to take over the newspaper industry in Detroit would be laughable if it were not for sinister ramifications involved in the case.

The humor in the incident springs from the fact a newspaper distributing firm organized by some members of the Teamsters, striking the Detroit News, toppled because of a fat contract negotiated with the Teamsters Union. The company folded because it couldn't meet the economic terms of its contract.

That's poetic justice.

The sorry episode began when the Teamsters struck the Detroit News and the newspaper suspended operations last Nov. 16. The Detroit Free Press was closed down the following day.

Metropolitan Distributors, the company formed by strikers, was established to distribute copies of the Detroit Daily Express, one of the three interim papers that sprang up after Detroit's two dailies closed down.

Failure of the distributing company signals demise of the interim newspapers and the end of another power play by the Teamsters.

It won't be the last. When a union gains enough power to hold legitimate enterprise at bay with a strike while it sets up its own business, it has become too powerful.

The Detroit venture is a perfect example of how absolute power corrupts absolutely.

The power pendulum has swung a long way from the time of seven-day work weeks and peanut pay. Unionism's abuse of its power is hastening the reverse swing of the pendulum.

Unions decry the growing demand for control of their irresponsible activities. It is stunts like the one in Detroit that clearly indicate the resolute direction of unionism.

No More Lefties

Leftest Greek political leader Andreas Papandreou, recently released from prison by the military junta, apparently is headed for the United States.

Papandreou, son of the former Greek premier, became an American citizen after coming to this country in 1940, and after taking a doctorate in economics at Harvard got a commission in the U. S. Navy.

After the war, he taught at several American universities before returning to Greece in 1961 and resuming his Greek citizenship in 1964. His wife and children are still U. S. citizens.

Upon hs arrival in Paris, Papandreou said he wasn't sure about his future plans and could not say indefinitely whether he would go back to teaching.

All this country needs is another leftist university professor.

Letter From Max

Dear Truman Twill:

Did you see those year-end stories from abroad in which foreign observers analyzed the United States and offered advice to us?

What a laugh!

The observers included a Briton, a German, a Frenchman and a Japanese. Can you imagine those guys trying to tell us how to run a country? It is like an apprentice trying to tell a journeyman how to do his job.

That is the price we have to pay for success. Everybody tries to tell the big star how to play the game.

Here we are, the strongest, richest, best and most-envied nation the world has ever known, and they are telling us what bad shape we are in and what we ought to do about it.

Here are a few things they accuse us of: "plagued by a malady," "irritated and sorrowful," "uneasiness," "conspiring," "crime, "marijuana," "anguish," "helplessness," "frustrated and bewildered," "beset by dark clouds," "social anxiety" and "incapable of discerning evils."

What they forgot to say is that we also are generous, courteous, considerate, gentle, master politicians in the best sense, industrious, brave, loyal and conscientious.

The United States isn't first in area or population among countries of the world, but it is first in almost everything else: steel, automobiles, television, telephones, bathrooms, electricity and you name it.

Symphony orchestras and theaters dot this nation, as do museums and universities.

Twill, do you know there are countries that don't even have black and white television, let alone color television? How can they manage?

Our colleges and medical staffs are jammed with scholars from foreign lands who come here to bask in our intellectual climate. And when it comes to technology, nobody can touch us.

Remember how Khrushchev came all the way from Moscow to stand in one of our supermarkets with his eyes bulging in disbelief at the wonder of it all?

Then, with all the glories this country has, along comes a British anatomy professor who taught in the U.S. who says, "Anyone from the universities thinking of migrating to the United States should consider the move carefully." Indeed!

People all over the world are beating on the doors of our consulates trying to get permission to come here. The reasons are obvious.

Other countries should set their own houses in order before trying to tell us how to improve on the best.

Twill, take my advice: Don't migrate.

Faithfully yours,
MAX

Purely Personal Observations

Pictures of earthquake damage in Sicily recall the rock-strewn landscapes we saw there on our visit two years ago and the fact the airport for Palermo is 20 miles away because that is the closest place there is enough flat land to carve a runway.

Sen. Eugene McCarthy now knows how one-time Sen. Barry Goldwater felt when he was bucking the political tide in 1964. "In your heart you know he's right," said the Goldwaterites, who knew that in their voting booths voters would record contrary opinion.

Rezsoe Seres, whose "Gloomy Sunday" was blamed for causing suicides in the 1930s, finally took his own life in Budapest. The song was banned in many places, including some places in the U.S.A., because it not only was sad but suggested the act its composer finally committed.

When I had shoveled an hour clearing the snow-plow windrow from the entrance to our country lane, a road scraper filled it up again to my pants pockets with me standing there in mute protest. I give the operator of the scraper credit. He never looked at me — a small figure of fist-brandishing indignation standing helplessly at the side of the road.

I find no validity in money comparisons that do not take into account the relative value of the money being compared, just as I find no validity in economic comparisons not weighed for other variables, such as population growth, changes in the times, new ideas and the like.

I was pleased when the Smothers Brothers agreed with my proposition that the logical place to cut down on tourism is the $26 billion it costs a year to keep upward of half a million Americans in Vietnam.

VICTOR RIESEL

Wirtz Hits Negro Demands

WASHINGTON — The federal government will not insist that there be specific quotas of Negroes among the highly paid work forces now remodeling America at the current rate of $76.5 billion this fiscal year.

Victor Riesel

The government will not insist that in every step of every job in every phase of building and construction there shall be representations of minorities — Negroes, Puerto Ricans, Mexican-Americans, Indians or Orientals.

Through the mellifluous words of the Administration's most winsome orator, Labor Secretary Willard Wirtz, the message is that the government will recognize that "whatever rules we devise by statute, regulation, by-laws and contracts (they) have to be sufficiently flexible that they will reflect the fact of life, which is that any of those things are only means and not ends that have to be adopted to particular situations."

Mr. Wirtz has said that the regulations covering the hiring of Negroes and their entry into the skilled AFL-CIO unions must be administered "on what is a case by case and person by person basis."

Mr. Wirtz, one of the most agile and intellectual of the President's cabinet, will need all his philosophical and persuasive powers to keep from being ground down in his effort to avert Negro direct action, warm weather demonstrations, picketing and counter mass picketing by the AFL-CIO, and political flagellation by both sides.

Talking recently to leaders of the 18-union AFL-CIO Building and Construction Trades Dept.'s 3.5 million members, Wirtz startled some of them who long have considered him "the enemy."

"I WANT TO MAKE IT dead clear," said he, "that I think it is an error to approach this problem or any other aspect of this problem in terms that mean a number of people, one or more Negroes or whites or anybody else, as being required on every single situation. It's a requirement for too much; it's a requirement for two little. It's a requirement that is cast in an entirely wrong term. It involves quotas in one form or another and as far as I am concerned — and I know I speak for you — that is simply the wrong approach and we have got to find a better one."

And he will try. On or about Jan. 16, the Labor Secretary and a Building and Construction Trades Dept. committee will sit and talk about the flash fire issue of putting Negroes on all federal construction projects where the contract is for $1 million or more.

Just how short the fuse is at the NAACP has not yet been determined. Its executive director, Roy Wilkins, is a moderate. But at the AFL-CIO convention he challenged the nation's labor leaders right on the convention floor to open the construction jobs to tens of thusands of Negroes.

Last June he alerted the NAACP's 1,500 branches tc make an inventory of skilled Negro workers in each region. He warned that all public construction would be stopped unless many Negroes were hired. His stormier colleague, Herb Hill, the Assn.'s labor secretary, said tersely: "No Negroes, no work."

Last November the Building and Construction union leaders invited Wirtz to talk to their convention. He demurred, saying he had agreed to address the big AFL-CIO gathering a few days later.

BUT HE FINALLY AGREED to say a few words of greeting to the Building union convention. Then, according to one union chief, "he came down and sensed the unrest among us and the Metal Trades Dept. (AFL-CIO)."

"He conferred with us privately both before and after the full speech he finally delivered to our convention (not to be mistaken for the National AFL-CIO Seventh Convention a week later)."

"Our position is," said a building craft union spokesman, "that if the Negro organizations give us a breather we will find the way to bring in qualified Negro journeymen and go right into the slum areas and train young disadvantaged Negroes for the trades. But we can't have amateurs rebuilding our cities, doing work requiring high skills under modern technology and we told Wirtz that."

What also has disturbed the labor leaders is the sentiment in some judicial circles as well as the regulations promulgated by labor department bureaus which insist that Negroes be hired even if they are not union members.

It was during his unreported speech at Bal Harbour at the end of November that Wirtz attempted to contain all the resentments. It was then that he pledged there would be no quotas — saying that though such action had been taken by the government (his own Department of Labor) in Cleveland and Philadelpha, this was due to the exigencies there at the moment.

"As far as federal contract compliance," Wirtz said, "I just want to say squarely, in the simplest possible way, that I think any rule which provides that there must be one or any other number of people of one or any other race in every craft, on every job, is wrong and it won't work. It's a wrong approach to this whole problem . . ."

He urged they talk things out as new answers and regulations are developed. He told them that they never have balked at cooperating on the racial front when it was all discussed and developed in advance.

"You rightfully resent it (when the view is expressed) that the building and construction trades are opposed to this kind of program, civil rights or another. So far as I know, there has never been opposition to a program which has been talked through with you in advance."

So they will talk it all out shortly. He has said that the answer the government has worked out, insisting on one rigid way of obtaining minority jobs, is by no means right, at least as a permanent answer.

The NAACP says the government just has not been tough enough. The labor leaders say the government has been too tough, too fast, too inexperienced.

It looks like a warm January.

DAVID LAWRENCE

Viet Calls Shots

Probably the most significant development in the Vietnam War in a long time is a speech just delivered by the president of the South Vietnam Republic, in which he criticized the United States for assuming initiative in negotiating peace in Vietnam. He feels this is the function of his own government.

President Nguyen Van Thieu is right from the standpoint of international law. The United States has sent its troops to the battle region at the request of the South Vietnamese government and is, therefore, in the status of an ally which may consult with other allies and with the government at Saigon.

But the final decision as to whether North Vietnam shall continue to be bombed and whether armed forces should be sent into Cambodia in "hot pursuit" rests with the South Vietnamese government.

The South Vietnam president declared any unconditional halting of the bombing of Vietnam is "preposterous" and "absurd" and urged, instead, that every pressure be exerted against North Vietnam and the Viet Cong, unless they stop aggression.

The speech, delivered to South Vietnamese newspaper editors, is said to reflect a fear among officials of the Saigon government — particularly the military men — that President Johnson may conclude a peace agreement with the Communists which will be unsatisfactory to the South Vietnam government.

This is the first time that even what may prove to be a mere difference of opinion, rather than a rift, between the United States and the new government in South Vietnam has appeared. It could have constructive results, because too many people in the United States, particularly in Congress, have been talking as if the United States is in complete control of the South Vietnam government and as if the latter would do as bidden by the Washington administration.

This naturally produces resentment and causes uneasiness in South Vietnam.

It is possible President Johnson may not be displeased at this utterance by President Thieu. In a sense, it makes clear that the initiative in peace negotiations is not entirely within the authority of the United States, and hence the responsibility for continuance of the war cannot rightfully be placed upon Washington.

The government of South Vietnam is fighting to preserve its independence and repel the aggressor forces of North Vietnam.

It cannot afford any peace arrangement which might weaken the South Vietnam government and possibly lead to domination and a takeover by North Vietnam. President Thieu issued a plain warning when he said:

"The Republic of Vietnam most naturally should have the central role in any development relating to the events in Vietnam."

As for Cambodia, the South Vietnam president was emphatic that Communists should not be permitted to use Cambodian territory as a sanctuary from which to launch attacks.

He declared there have been consistent violations of Cambodian neutrality by the Viet Cong and that the Saigon government reserves the right to pursue guerrillas into Cambodia.

After President Thieu's speech was reported in the American press, Secretary of State Rusk issued a statement reiterating the basic principle that "the South Vietnamese people must determine their own future without external interference."

He said the United States stands by its declaration of Dec. 8 that "imposition of any coalition government would be at variance with this principle."

President Johnson has made the same point before. But evidently there are individuals inside and outside Congress, as well as organizations which seem to think the President of the United States can push a button and end the Vietnam War at will.

The Johnson administration has indicated plainly it will not make peace in Vietnam unless terms satisfactory to the South Vietnamese are obtained.

sion in less crowded and more comfortable quarters.

Johnson's renewed call for a 10 per cent income tax surcharge got a frigid reception. There was no response from the floor when he warned: "Interest rates have passed the peak of 1966; and if there is continued inaction on the tax bill they will climb even higher.

"I warn the nation that this failure to act will sweep us into an accelerating spiral of price increases; a slump in home building; and continuing erosion of the American dollar."

Chairman Wilbur D. Mills, D-Ark., of the tax-writing House Ways and Means Committee declined comment until he studies the budget. House Republican Leader Gerald R. Ford said Johnson had made no case for a tax increase.

Chairman Russell B. Long, D-La., of the Senate Finance Committee, said he remains opposed to a tax increaase.

County TB Clinic Gives Report On December Cases

LISBON — Columbiana County had five patients in tuberculosis hospitals at the end of December, compared with 10 at the same time a year earlier.

A county patient died in a TB hospital last month and two were released with medical advice.

The December report of the County Tuberculosis Clinic at the Courthouse here shows there were 133 patients on home medication last month, compared with 149 in December 1966.

Of the patients at home, 50 are in the General Health District outside the cities, 41 in East Liverpool, 24 in Salem, 12 in Wellsville and 6 in East Palestine. Three of the hospital patients are from East Liverpool and two from the General Health District.

A review of December activity follows, with December 1966 figures in parentheses::

Chest X-rays, 64 (52); Mantoux tuberculin tests, 114 (96); Heaf tuberculin tests, 1,293 (1,102), and nursing visits, 95 (69).

There were four consultations last month with Dr. M. K. Singer, medical director. Six patients were placed on medication at home. There were no new cases of TB reported in December.

Ohio

(Continued from Page 1)

the Senate planned to vote on a bill no later than Friday to give the House a week to act.

The two main vehicles before Turner's committee include one he and Sen. Stanley J. Aronoff R-8 Cincinnati devised and an overhauled administration plan introduced in the Senate Wednesday.

Turner said these two measures — with possibly some modification — would be reported out of his committee favorably. GOP caucuses then would pick one, or possibly combine both into a single bill for floor consideration.

Turner said earlier the leadership may decide to send the two plans to the federal court in Cleveland. One would bear a "first choice" tag.

The new administration plan allows more — but not much more — population variation among districts than a previous one submitted by Gov. James A. Rhodes and Atty. General William B. Saxbe. It permits a difference of 1.83 per cent between the smallest and largest districts. It also preserves more county lines than the first.

The Turner-Aronoff proposal has been looked upon with more favor among Republicans because it permits drafters more leeway in the protection of GOP incumbent congressmen's districts.

Originally their plan permitted a total of 9.5 per cent population deviation between the smallest and largest district. They yielded Wednesday to advocates of tighter districts and cut the figure to six per cent.

In other developments, the House passed a handful of Senate bills left over from the 1967 session. Two bills were introduced in the lower chamber.

Measures approved by the House would prohibit sale of alcoholic beverages, gambling, and immoral shows at independent fairs, provide expense payments for return of felons from other states and foreign countries, provide counsel for juvenile delinquent court defendants if parents cannot afford it, and sepcify that community colleges, technical institutes, and university branches are included in the definition of "subdivision" in laws covering taxing and bond issuing authority.

The House received measures increasing penalties for violation of health board orders and providing for issuing and retiring urban redevelopment bonds without pledging municipal credit.

Among eight bills introduced in the Senate was one spelling out authority for expulsion of faculty members and students involved in rioting at state-supported college and universities.

Others would permit combinations of cities and counties for creation of community college districts to borrow up to 75 per cent of anticipated tax collections for bond servicing, empower the public health council to set tuberculosis hospital standards, and change the Feb. 7 filing deadline for congressional candidates to 20 days after court approval of a new redistricting plan.

sion in less crowded and more comfortable quarters.

Johnson's renewed call for a 10 per cent income tax surcharge got a frigid reception. There was no response from the floor when he warned: "Interest rates have passed the peak of 1966; and if there is continued inaction on the tax bill they will climb even higher.

"I warn the nation that this failure to act will sweep us into an accelerating spiral of price increases; a slump in home building; and continuing erosion of the American dollar."

Chairman Wilbur D. Mills, D-Ark., of the tax-writing House Ways and Means Committee declined comment until he studies the budget. House Republican Leader Gerald R. Ford said Johnson had made no case for a tax increase.

Chairman Russell B. Long, D-La., of the Senate Finance Committee, said he remains opposed to a tax increaase.

Ohio

the Senate planned to vote on a bill no later than Friday to give the House a week to act.

The two main vehicles before Turner's committee include one he and Sen. Stanley J. Aronoff R-8 Cincinnati devised and an overhauled administration plan introduced in the Senate Wednesday.

Turner said these two measures — with possibly some modification — would be reported out of his committee favorably. GOP caucuses then would pick one, or possibly combine both into a single bill for floor consideration.

Turner said earlier the leadership may decide to send the two plans to the federal court in Cleveland. One would bear a "first choice" tag.

The new administration plan allows more — but not much more — population variation among districts than a previous one submitted by Gov. James A. Rhodes and Atty. General William B. Saxbe. It permits a difference of 1.83 per cent between the smallest and largest districts. It also preserves more county lines than the first.

The Turner-Aronoff proposal has been looked upon with more favor among Republicans because it permits drafters more leeway in the protection of GOP incumbent congressmen's districts.

Originally their plan permitted a total of 9.5 per cent population deviation between the smallest and largest district. They yielded Wednesday to advocates of tighter districts and cut the figure to six per cent.

In other developments, the House passed a handful of Senate bills left over from the 1967 session. Two bills were introduced in the lower chamber.

Measures approved by the House would prohibit sale of alcoholic beverages, gambling, and immoral shows at independent fairs, provide expense payments for return of felons from other states and foreign countries, provide counsel for juvenile delinquent court defendants if parents cannot afford it, and sepcify that community colleges, technical institutes, and university branches are included in the definition of "subdivision" in laws covering taxing and bond issuing authority.

The House received measures increasing penalties for violation of health board orders and providing for issuing and retiring urban redevelopment bonds without pledging municipal credit.

Among eight bills introduced in the Senate was one spelling out authority for expulsion of faculty members and students involved in rioting at state - supported college and universities.

Others would permit combinations of cities and counties for creation of community college districts to borrow up to 75 per cent of anticipated tax collections for bond servicing, empower the public health council to set tuberculosis hospital standards, and change the Feb. 7 filing deadline for congressional candidates to 20 days after court approval of a new redistricting plan.

Local Residents Receive 'Thanks' For Project Aid

Letters of thanks from the editorial staff of Life Magazine have been received by Mrs. E H. Harris, wife of the minister of the Second Baptist Church, for the East End merchants and families who responded to the pre-Christmas article "Poverty —The Hungry World of Teresa Pilgrim."

Anne Celli, assistant to the editors, and Jane Douglas, public relations director, commended the community for the gifts of food and money. She said that the family has received sufficient financial assistance from many parts of the country to enable Nathan Pilgrim, the child's father, to move his family to California, where he has been offered a job.

The Pilgrim family was only one of the many destitute and impoverished groups in the Delta area of Mississippi and the magazine has made arrangements with the Missippi Council on Human Relations to see that others benefit directly from the contributions still arriving.

Any one wishing to participate in this project may contact the Senior Choir of the church, Mrs. Harris or send their contribution to Kenneth Dean, director of the Council of Human Relations, 302 First Federal Savings and Loan Bldg., Jackson, Miss.

The church choir is collecting children's and adult clothing and other needed items. Contributions may be left at the church or arrangements will be made to pick them up.

$900,000 Libel Suit Cites Two Wheeling Papers

WHEELING (AP)— Ohio County Prosecutor and congressional candidate Arch W. Riley has filed a $900,000 libel suit against two Wheeling newspapers accusing them of waging a continuous attack on his candidacy for Congress.

He filed the suit Wednesday in Ohio County Circuit Court. Named as defendants were the News Publishing Co.; Harry Hamm, editor of the Wheeling News-Register; reporter Don Daniel, and two city police officers, Leonard Prezkop and Willard Jarrett.

In the suit Riley claimed that an article which appeared in the News-Register last Tuesday held him up to "hatred, contempt, ridicule, and distrust" He alleged the article "was aimed to destroy my reputation as an attorney and as a prosecuting attorney and to prejudice my candidacy for Congress."

The newspaper article concerned the investigation into a Dec. 31 fire which killed seven children. The story quoted the police officers as claiming that Riley had refused to file child neglect charges against the two mothers of the dead children.

Monaca Youth Fined In Traffic Light Case

James Dewayne Bruce, 20, of Monaca was fined $10 and costs today by Municipal Judge Samuel M. Chertoff when he pleaded guilty to a charge of crashing a traffic signal at 1:04 this morning at E. 3rd St. and Broadway.

Bruce also was ordered to pay court costs on a charge of operating an auto without tail lights. He was cited by Patrolmen Dwight Garvey and James Buckley.

Acting on a motion by Solicitor J. Michael Kapp, the judge dismissed a third charge that Bruce operated an auto with Pennsylvania license tags issued for another car. The judge agreed with Kapp that it was "up to the state of Pennsylvania to determine the validity of the tags."

Cuba Reveals Incident Of U.S. Aircraft

HAVANA (AP)—The government announced today it had shot down and captured an ex-paratrooper from the United States after he dropped a package with a rifle while flying his small plane over Cuba Dec. 29.

The Interior Ministry announcement identified the pilot as Everett Jackson, 27, of Los Angeles. The ministry said his two-engine Taylorcraft was hit by antiaircraft fire over the central Cuban city of Rancho Veloz. The plane fell on Falcon's Key on the north coast in the province of Las Villas.

The announcement did not say what has happened to Jackson since his capture or if he was injured when his plane was downed.

The Interior Ministry described Jackson's motive as "to infiltrate national territory."

The announcement was published on the first page of the Communist party newspaper Granma and in the semioffocial newspaper El Mundo, but without the customary headline splash.

CARRIED AWAY by her imagination, Karen Dagg, 4, burst into tears on seeing this "monster," created from a winning drawing she submitted in a London contest.

School Bus, Truck Involved In Mishap

There were no injuries when a Hancock County school bus and a pickup truck collided Wednesday about 3:15 p.m. on Middle Run Rd. in Hancock County.

Lee A. Dales, 42, of Chester was driver of the bus and Willard Strum, 52, of Chester RD 1 driver of the truck. Troopers reported that the two vehicles, traveling in opposite directions, were trying to pass each other, but due to the narrow road the bus slid into the truck.

ported, but he probably was a major. Last month U.S. troops killed a North Vietnamese regimental commander in the Que Son Valley 35 miles south of Da Nang.

Fifteen miles to the north of the ambush site, two other new paratrooper units were accidentally hit by two rounds of 105mm artillery fire by an Amercan battery. Two paratroopers were killed and 21 wounded.

In the air war, U.S. planes flew 82 missions against North Vietnam Wednesday, and the two crewman of an Air Force F4 Phantom reported the "probable" downing of a MIG21 in a brief engagement.

The biggest of the ground fights in South Vietnam Wednesday came after a reconnaissance patrol of the Army's Americal Division ran into a Viet Cong unit of unknown size near Quang Ngai, in the coastal lowlands 325 miles northeast of Saigon.

U.S. troops trapped the Communists in a box formation and raked them with artillery, and machine-gun and rocket fire from helicopter gunships. They reported finding 80 enemy bodies and 35 weapons and said only two Americans were wounded.

In another one-sided fight, U.S. Headquarters said infantrymen of the U.S. 9th Division killed 14 Viet Cong 28 miles southwest of Saigon and took no casualties.

Infantrymen of the 25th Divison fought for three hours with another Communist force 65 miles northwest of Saigon and four miles from the Cambodian frontier. With artillery and helicopter gunships joining in, the Americans killed 17 Communists, spokesmen reported. U.S. losses were put at five dead and 22 wounded, but only one of the wounded required hospitalization.

Traffic

(Continued from Page 1)

Patrolman Orin C. Smith commented in the accident report that the pavement was "very slippery" at the scene.

Mrs. Morrison said she was driving west about 15 to 20 miles an hour when an unidentified small blue car pulled out in front of her auto. When she applied the brakes, her car slid to the left and hit the Vocial and Nolan autos, bounced off them and went into the Mackall used car lot.

Mrs. Vocial said she could see that the Morrison auto was out of control and she tried unsuccessfully to avoid a collision. Nolan's auto was behind Mrs. Vocial's.

The collision damaged the right front fender, bumper and headlight and left front fender of the Morrison car; the left rear quarter panel area of the Vocial car; the left rear fender and bumper of the Nolan auto and the left front of each of the autos on the used car lot.

While the fiscal 1969 military budget will be up $2.9 billion over 1968, it still will fall about $11 billion short of the World War II peak.

The optimistic forecast of a leveling off in Vietnam came as officials discussed Johnson's State of the Union message to the House and Senate Wednesday night.

That forecast is in tune with Gen. William C. Westmoreland's confident statement while in Washington about two months ago that "we have reached an important point when the end begins to come into view."

Westmoreland, the U.S. commander in Vietnam, has spoken of a possible start on U.S. troop withdrawals within two years.

American optimism has soured in the past and there is no assurance it won't happen again.

The Pentagon had hoped to hold the U.S. troop commitment to about 480,000 men by next June 30. But last summer, Johnson yielded to Westmoreland's request for reinforcements. The Vietnam manpower ceiling was raised by about 45,000 men.

Despite this, and other unforeseen cost rises, Johnson has managed to avoid asking Congress for additional funds to pay for the war effort between now and the end of this fiscal year.

The Pentagon is helping by balancing off $6 billion in increased costs with reductions in non-Vietnam programs.

Faith In Action

ROCHESTER, N. Y. (AP)—A new course at the Academy of the Sacred Heart called "Training in Social Action" enables girls taking the class in religious education to put their faith to work by serving others. The girls leave the school for one period each week to do volunteer work in area nursing homes, hospital day care centers and schools. They take over classes so teachers can have lunch, feed cerebral palsy victims and care for the aged.

colonels, a major, a captain and three enlisted men.

The survivor was T. Sgt. William G. Wright, 34, the plane's steward.

Wright was taken to John Moses Hospital in Minot, 14 miles south of the Strategic Air Command base in north central North Dakota. He suffered burns over 70 to 80 per cent of his body and was reported in critical condition.

The tanker, a four-engine jet usually used to refuel other planes in flight, was on a routine staff visit to Minot and was taking off for Glasgow, Mont., Air Force Base. The craft had been outfitted for passenger service and was not carrying extra fuel, officials said.

Officials at the base said the plane apparently was airborne just before the crash. The wreckage was about 20 yards to the right of and about three-quarters of the way down the 15,000-foot long runway.

The base information officer said, "To my knowledge there were no eyewitness. Visibility was too low."

A civilian employe at the base, who asked that his name not be used, said, "It was so foggy I couldn't see." He said visibility was no more than 300 feet.

An official at the Minot base said there was no way to know yet what caused the accident.

Gen. Eisenhart, a native of Culbertson, Neb., made his home at McCook, Neb. He is survived by his widow, Dorothy; a son, Donald, 19, and a daughter, Marion, 17.

He had been a military pilot for more than 30 years, entering the Army Air Corps in 1937. In World War II, he commanded bomber squadrons operating from the Marianas Islands against Japan. Among his decorations were the Legion of Merit, the Distinguished Flying Cross and the Bronze Star. He had flown more than 8,000 hours, including 156 combat hours.

President James A. Garfield was a lay preacher in the denomination known as "The Disciples of Christ."

Suspect Files 'Guilty' Plea

Terry Lee Hensel, 21, of East Liverpool, linked to two other area men in an East Liverpool service station holdup, pleaded guilty to violation of a weapons law charge Wednesday night before Justice of the Peace Steve Germusa.

Hensel was bound over to the Beaver County Grand Jury and jailed at Beaver in lieu of $3,000 bond.

Hensel was taken into custody last Friday along Route 68 near the Highway Oil Co. by Ohioville Patrolman Michael Haydin who upon searching him, found a .38 caliber pistol.

Further investigation tied Hensel in with Stanley C. Lovett, 26, of Alliance, formerly of East Liverpool, and Charles Junior Mercer, 18, of East Liverpool with the Jan. 2 holdup of a service station.

Dale Saling, attendant at the service station at E. 3rd St. and Broadway in East Liverpool, was robbed and tied up by a gunman who came into the station wearing what was described as a goatee and moustache.

The bandit took $114 from Saling, and then two accomplices drove into the service station's greasing area and loaded the station's safe into the auto. It contained $243, and was found later in the day in a vacant basement of a downtown building.

Crews Continue Repair Project On Chester Span

One-way traffic was in effect on the Chester Bridge this morning, but full traffic flow was scheduled Friday as repair crews continued work on the span.

The bridge was closed for several hours Wednesday while the Conn Construction Co. of New Castle replaced some steel members damaged by previous traffic mishaps.

The work resulted from an inspection made of the bridge by engineers retained by the Ohio Highway Department to determine its structural safety.

Other repair work is scheduled later, officials said.

struck in the arm by shattered glass and was released Tuesday after treatment.

The government put more guards on the U.S. Embassy and other American installations and sent regrets to Washington.

Webber and Munro were the first U.S. victims of a wave of rightist and leftist terrorism that has taken more than 1,000 lives in the last year and a half. Two Guatemalans were assassinated Tuesday, and one terrorist was killed.

In Washington, State Department press officer Robert J. McCloskey said about 5,000 U.S. citizens live in Guatemala and several hundred U.S. tourists are usually in the country.

"All possible precautions are being taken by our own people," he said.

Covey T. Oliver, U.S. assistant secretary of state, arrived Wednesday night on a swing through Central America. Foreign Minister Emilio Arenales canceled a reception in his honor because of the deaths of the two American officers.

Polo is said to have originated in Gilgit, a Himalayan state.

Cuba Reveals Incident Of U.S. Aircraft

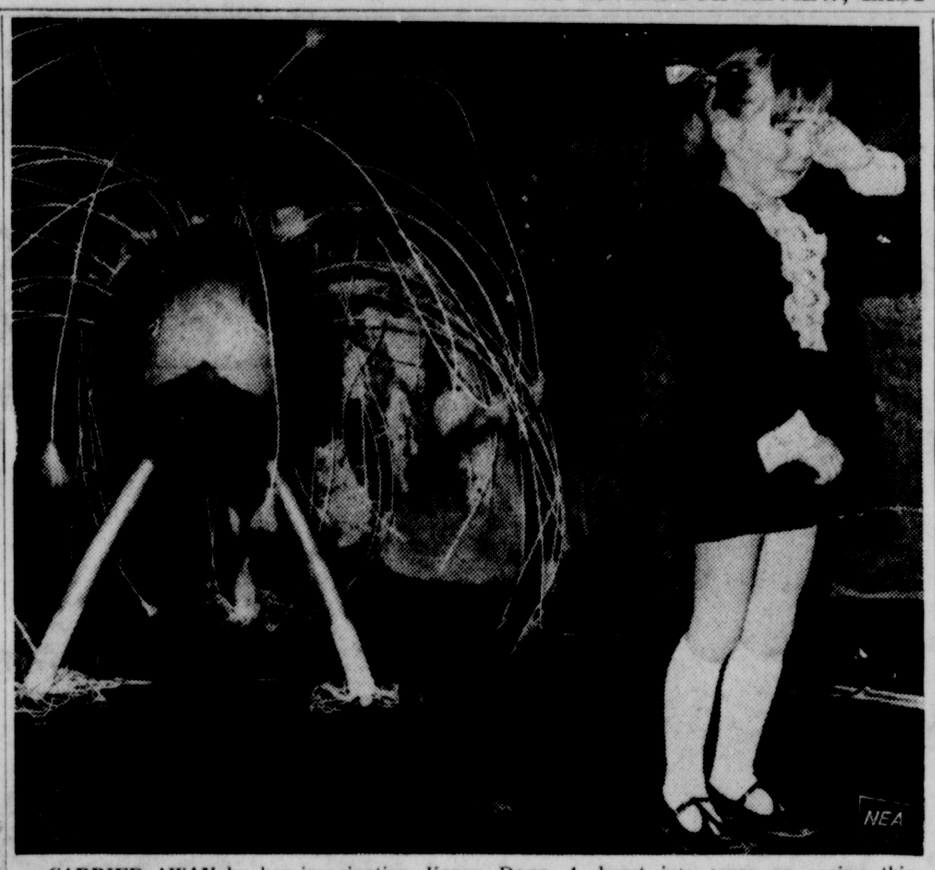

HAVANA (AP)—The government announced today it had shot down and captured an ex-paratrooper from the United States after he dropped a package with a rifle while flying his small plane over Cuba Dec. 29.

The Interior Ministry announcement identified the pilot as Everett Jackson, 27, of Los Angeles. The ministry said his two-engine Taylorcraft was hit by antiaircraft fire over the central Cuban city of Rancho Veloz. The plane fell on Falcon's Key on the north coast in the province of Las Villas.

The announcement did not say what has happened to Jackson since his capture or if he was injured when his plane was downed.

The Interior Ministry described Jackson's motive as "to infiltrate national territory."

The announcement was published on the first page of the Communist party newspaper Granma and in the semioffocial newspaper El Mundo, but without the customary headline splash.

CARRIED AWAY by her imagination, Karen Dagg, 4, burst into tears on seeing this "monster," created from a winning drawing she submitted in a London contest.

School Bus, Truck Involved In Mishap

There were no injuries when a Hancock County school bus and a pickup truck collided Wednesday about 3:15 p.m. on Middle Run Rd. in Hancock County.

Leo A. Dales, 42, of Chester was driver of the bus and Willard Strum, 52, of Chester RD 1 driver of the truck. Troopers reported that the two vehicles, traveling in opposite directions, were trying to pass each other, but due to the narrow road the bus slid into the truck.

Fifteen miles to the north of the ambush site, two other new paratrooper units were accidentally hit by two rounds of 105mm artillery fire by an American battery. Two paratroopers were killed and 21 wounded.

In the air war, U.S. planes flew 82 missions against North Vietnam Wednesday, and the two crewman of an Air Force F4 Phantom reported the "probable" downing of a MIG21 in a brief engagement.

The biggest of the ground fights in South Vietnam Wednesday came after a reconnaissance patrol of the Army's Americal Division ran into a Viet Cong unit of unknown size near Quang Ngai, in the coastal lowlands 325 miles northeast of Saigon.

U.S. troops trapped the Communists in a box formation and raked them with artillery, and machine-gun and rocket fire from helicopter gunships. They reported finding 80 enemy bodies and 35 weapons and said only two Americans were wounded.

In another one-sided fight, U.S. Headquarters said infantrymen of the U.S. 9th Division killed 14 Viet Cong 28 miles southwest of Saigon and took no casualties.

Infantrymen of the 25th Divison fought for three hours with another Communist force 65 miles northwest of Saigon and four miles from the Cambodian frontier. With artillery and helicopter gunships joining in, the Americans killed 17 Communists, spokesmen reported. U.S. losses were put at five dead and 22 wounded, but only one of the wounded required hospitalization.

Traffic

Patrolman Orin C. Smith commented in the accident report that the pavement was "very slippery" at the scene.

Mrs. Morrison said she was driving west about 15 to 20 miles an hour when an unidentified small blue car pulled out in front of her auto. When she applied the brakes, her car slid to the left and hit the Vocial and Nolan autos, bounced off them and went into the Mackall used car lot.

Mrs. Vocial said she could see that the Morrison auto was out of control and she tried unsuccessfully to avoid a collision. Nolan's auto was behind Mrs. Vocial's.

The collision damaged the right front fender, bumper and headlight and left front fender of the Morrison car; the left rear quarter panel area of the Vocial car; the left rear fender and bumper of the Nolan auto and the left front of each of the autos on the used car lot.

Medicare And Social Security – No. 14

System Seen In Balance

By BRUCE BIOSSAT

WASHINGTON (NEA) The harshest critics of the Social Security system, watching it grow and take on more and more burdens like Medicare, like to argue that it is at least $350 billion in the red and steadily going broke.

Without minimizing the huge financial problems which inevitably accompany the system's constant enlargement, it seems fair to say that these arguments are insupportable.

In the first place, the $350 billion figure represents the entire unfunded outstanding obligations of the Social Security system.

But this total sum is not owed now in any real sense, and could not be unless the many millions of potential beneficiaries in this country suddenly—in one curious stroke — became eligible together for their retirement, survivors' and disabled benefits.

—:—

OF COURSE nothing like that is going to happen. What counts is the system's capacity to pay its obligations as they develop.

Most economists and other specialists believe it is in good shape if, generally, it has a fund reserve roughly equal to the amounts it must pay out in benefits in a given year.

Social Security authorities say trust funds of the system presently hold close to $26 billion, more than enough to cover an expected record $25.2 billion outlay in cash benefits in 1968 as new higher payments take effect.

Some critics argue that so close a relationship between income and outgo is dangerous.

But present and future income is guaranteed by law, since Social Security taxes must be deducted from workers' pay checks, employers must match these deductions, and additional revenues are gathered as interest on the accumulated funds.

Furthermore, Congress in its 1967 Social Security revisions has just spread the base from which the tax is collected to reach earnings up to $7,800 instead of the old $6,600, and has provided for six tax increases between 1969 and 1987.

—:—

ON TOP of this, steadily rising wage levels suggest that in the years ahead more and more workers will be paying Social Security taxes up to—or near—the newly-specified income top of $7,800.

Another point is that the new top probably could be lifted again, at least to the $10,800 level the administration sought in 1967, without too much political fuss. And there would be still more leeway here, since analysts note that even at the $10,800 level only 87 per cent of U. S. workers would be taxed on all their wages.

Despite Social Security's enormous and continuing growth, receipts have exceeded payments in all but five of its more than 30 years of life. In the next five years, forecasts are that perhaps another $36 billion will be added to its trust fund reserves —notwithstanding rising outgo.

The system is helped, additionally, by the fact that many Americans who pay in never make any claims against it. Some die before retirement time and leave no survivors, some work on past retirement age at good income levels and never seek benefits.

—:—

ONE ANALYST points out that the system is being heavily freshened at the youthful end of the worker scale.

In a typical year, he says, 2.2 million Americans enter the labor force, but only 675,000 or so retire under Social Security. As the heavy entering numbers move up the income ladder, their tax contributions should prove immense.

The whole Social Security enterprise has grown to such proportions that it is estimated Social Security today accounts for 18 per cent of all federal taxes raised. The percentage conceivably may go higher.

The Social Security tax structure is now taking in upwards of $25 billion a year and this total, too, is rising.

Some specialists, indeed, are arguing that, far from being broke, Social Security is beginning to accumulate too much money in its trust funds and that future pileups might have a strongly deflationary effect on the whole economy.

Next: More Changes Coming.

Two Republicans In W.Va. To Seek U.S. House Seats

CHARLESTON, W. Va. (AP) — Two Republicans filed Wednesday to run as candidates for nomination for the U.S. House of Representatives, Clarksburg lawyer Daniel L. Louchery in the 1st District and Charleston coal executive Joe L. McQuade in the 3rd.

Louchery, former state Republican chairman, filed with the secretary of state to run in the May 14 primary for nomination for the seat being vacated by Rep. Arch A. Moore Jr., a candidate for the GOP nomination for governor.

McQuade, a former Richwood resident, will seek nomination for the seat now held by Rep. John M. Slack Jr., Charleston Democrat who is running again.

Louchery was GOP nominee for Congress in 1956 in the 3rd District, before his home county of Harrison was shifted to the 1st District. He lost to the late Rep. Cleveland M. Bailey by 3,617 votes in the general election.

Louchery faces primary opposition from one other Republican, Tom Sweeney of Wheeling, who has filed to run for the 1st District seat.

McQuade was the second Republican to file as a congressional candidate in the 3rd. The other is State Sen. Neal A. Kinsolving of Charleston.

Also filing today as primary candidates were:

Del. Robert M. Steptoe of Martinsburg, Democrat, for House of Delegates from the 1st Delegate District.

Judge Lloyd Arnold of Middlebourne, Republican, for judge of the 2nd Judicial Circuit.

In a related development, Ritchie County Circuit Court Judge Max Deberry announced he will not seek re-election as judge of the 3rd Judicial Circuit.

A Republican, Deberry said his doctor had advised him he is ill with a malignancy and would not be able to serve another term if re-elected.

Deberry said he will withdraw his certificate of candidacy filed earlier.

DYNAMIC DISCOUNT DRUGS

GENERICS or BRAND NAMES

It has been the policy of Discount Drugs to price prescriptions as low as possible consistent with the highest quality standards. Now, we offer your doctor a CHOICE at Dynamic Dicount Drugs.

The choice of prescribing by brand name, or Generic name, is entirely up to your physician. Generic production has expanded, and Dynamic Discount Drugs HAS RESEARCHED THE MANUFACTURERS in order to offer the finest in specially made Generic drugs.

The BRAND NAME under which a pharmaceutical company manufactures and sells a certain drug usually is patented and when a Dynamic Discount Drugs pharmacist receives a prescription for a brand name, he legally is required to provide the exact product specified by your doctor. He must also price the prescription according to his cost on the Brand Name drug, which, due to promotional and distribution expense, is somewhat higher than comparable generic drugs.

The GENERIC NAME, by contrast, is the official common name of a drug. For example, certain so-called blood pressure reducing drugs known under familiar brand names also are described by the GENERIC name of "Reserpine." Generally, a Generic drug prescription will be a lot less than the price of a prescription of a brand name because of the economics of distribution and advertising.

Your doctor knows this, but he also knows when a certain illness will best be cured by the makeup of a particular brand name drug. IF HE DOES PRESCRIBE A GENERIC DRUG rely on Dynamic Drugs to fill your prescription. The highest quality generic drugs available are in stock at Dynamic Discount. This is another of the many reasons it always pays to shop and save at Dynamic Discount. When lower prices can be given, and quality assured, you'll find Dynamic Discount Drugs first to help your budget and your health.

Dynamic Discount serves you. When you're paying a lower price, you're shopping at Discount Drugs.

See your doctor – if he hands you a prescription – bring it to Dynamic Discount for the lowest price, without having to accept less than top drawer quality & service.

OF COURSE nothing like that is going to happen. What counts is the system's capacity to pay its obligations as they develop.

Most economists and other specialists believe it is in good shape if, generally, it has a fund reserve roughly equal to the amounts it must pay out in benefits in a given year.

Social Security authorities say trust funds of the system presently hold close to $26 billion, more than enough to cover an expected record $25.2 billion outlay in cash benefits in 1968 as new higher payments take effect.

Some critics argue that so close a relationship between income and outgo is dangerous.

But present and future income is guaranteed by law, since Social Security taxes must be deducted from workers' pay checks, employers must match these deductions, and additional revenues are gathered as interest on the accumulated funds.

Furthermore, Congress in its 1967 Social Security revisions has just spread the base from which the tax is collected to reach earnings up to $7,800 instead of the old $6,600, and has provided for six tax increases between 1969 and 1987.

—:—

ON TOP of this, steadily rising wage levels suggest that in the years ahead more and more workers will be paying Social Security taxes up to—or near—the newly-specified income top of $7,800.

Another point is that the new top probably could be lifted again, at least to the $10,800 level the administration sought in 1967, without too much political fuss. And there would be still more leeway here, since analysts note that even at the $10,800 level only 87 per cent of U. S. workers would be taxed on all their wages.

Despite Social Security's enormous and continuing growth, receipts have exceeded payments in all but five of its more than 30 years of life. In the next five years, forecasts are that perhaps another $36 billion will be added to its trust fund reserves —notwithstanding rising outgo.

The system is helped, additionally, by the fact that many Americans who pay in never make any claims against it. Some die before retirement time and leave no survivors, some work on past retirement age at good income levels and never seek benefits.

—:—

ONE ANALYST points out that the system is being heavily freshened at the youthful end of the worker scale.

In a typical year, he says, 2.2 million Americans enter the labor force, but only 675,000 or so retire under Social Security. As the heavy entering numbers move up the income ladder, their tax contributions should prove immense.

The whole Social Security enterprise has grown to such proportions that it is estimated Social Security today accounts for 18 per cent of all federal taxes raised. The percentage conceivably may go higher.

The Social Security tax structure is now taking in upwards of $25 billion a year and this total, too, is rising.

Some specialists, indeed, are arguing that, far from being broke, Social Security is beginning to accumulate too much money in its trust funds and that future pileups might have a strongly deflationary effect on the whole economy.

Next: More Changes Coming.

Two Republicans In W.Va. To Seek U.S. House Seats

CHARLESTON, W. Va. (AP) — Two Republicans filed Wednesday to run as candidates for nomination for the U.S. House of Representatives, Clarksburg lawyer Daniel L. Louchery in the 1st District and Charleston coal executive Joe L. McQuade in the 3rd.

Louchery, former state Republican chairman, filed with the secretary of state to run in the May 14 primary for nomination for the seat being vacated by Rep. Arch A. Moore Jr., a candidate for the GOP nomination for governor.

McQuade, a former Richwood resident, will seek nomination for the seat now held by Rep. John M. Slack Jr., Charleston Democrat who is running again.

Louchery was GOP nominee for Congress in 1956 in the 3rd District, before his home county of Harrison was shifted to the 1st District. He lost to the late Rep. Cleveland M. Bailey by 3,617 votes in the general election.

Louchery faces primary opposition from one other Republican, Tom Sweeney of Wheeling, who has filed to run for the 1st District seat.

McQuade was the second Republican to file as a congressional candidate in the 3rd. The other is State Sen. Neal A. Kinsolving of Charleston.

Also filing today as primary candidates were:

Del. Robert M. Steptoe of Martinsburg, Democrat, for House of Delegates from the 1st Delegate District.

Judge Lloyd Arnold of Middlebourne, Republican, for judge of the 2nd Judicial Circuit.

In a related development, Ritchie County Circuit Court Judge Max Deberry announced he will not seek re-election as judge of the 3rd Judicial Circuit.

A Republican, Deberry said his doctor had advised him he is ill with a malignancy and would not be able to serve another term if re-elected.

Deberry said he will withdraw his certificate of candidacy filed earlier.

YOUR DOCTOR HAS HIS CHOICE
at
DYNAMIC DISCOUNT DRUGS

GENERICS or BRAND NAMES

It has been the policy of Discount Drugs to price prescriptions as low as possible consistent with the highest quality standards. Now, we offer your doctor a CHOICE at Dynamic Dicount Drugs.

The choice of prescribing by brand name, or Generic name, is entirely up to your physician. Generic production has expanded, and Dynamic Discount Drugs HAS RESEARCHED THE MANUFACTURERS in order to offer the finest in specially made Generic drugs.

The BRAND NAME under which a pharmaceutical company manufactures and sells a certain drug usually is patented and when a Dynamic Discount Drugs pharmacist receives a prescription for a brand name, he legally is required to provide the exact product specified by your doctor. He must also price the prescription according to his cost on the Brand Name drug, which, due to promotional and distribution expense, is somewhat higher than comparable generic drugs.

The GENERIC NAME, by contrast, is the official common name of a drug. For example, certain so-called blood pressure reducing drugs known under familiar brand names also are described by the GENERIC name of "Reserpine." Generally, a Generic drug prescription will be a lot less than the price of a prescription of a brand name because of the economics of distribution and advertising.

Your doctor knows this, but he also knows when a certain illness will best be cured by the makeup of a particular brand name drug. IF HE DOES PRESCRIBE A GENERIC DRUG rely on Dynamic Drugs to fill your prescription. The highest quality generic drugs available are in stock at Dynamic Discount. This is another of the many reasons it always pays to shop and save at Dynamic Discount. When lower prices can be given, and quality assured, you'll find Dynamic Discount Drugs first to help your budget and your health.

Dynamic Discount serves you. When you're paying a lower price, you're shopping at Discount Drugs.

See your doctor – if he hands you a prescription – bring it to Dynamic Discount for the lowest price, without having to accept less than top drawer quality & service.

Police Padlock Church After Bare-Kunckle Fight

CLEVELAND (AP) — Police stood guard over a padlocked church today, the result of a bare knuckle brawl that was stopped by shotguns and nightsticks.

"The first person who touches me will be dead," a policeman shouted as he brandished a shotgun to break up the fight Wednesday at St. Sava Serbian Orthodox Church in suburban Parma.

It is not known what triggered the fist-swinging, chair-throwing outburst in the church basement. Church members fought each other for about 10 minutes, when the lights went out briefly.

Police rushed to the church, herded everyone out and padlocked the doors by order of Parma Mayor John Petruska.

The church split is between one group loyal to the mother church in Belgrade, Yugslavia and another group against the Belgrade church, which they claim is controlled by the state.

Most of the arguments have been in the courts for five years.

About 200 men, women and teen-agers were in the building Wednesday and both sides had worshipped after a court order, enforced by Cuyahoga County sheriff's deputies, opened the doors.

The pro-mother group had taken possession of the church last March when the opposing group won a court-supervised election. The court ruling last Thursday opened the church to both sides. About 4:35 p.m., a shoving match started in the basement hall. Tempers flared.

"A couple people picked up chairs and started hitting each other," a witness said. "Chairs flew. Then the lights went out. Everybody started rushing upstairs. There was fighting on the stairwell. People were pushing, yelling and screaming. Elderly people were crying."

Witnesses said one man on the stairwell had a knife and tried to stab someone. Others tried to stop him. During the pushing, a Parma plainclothesman was shoved into a corner. He radioed on a walkie-talkie for help.

Police arrived and the fighting stopped. There were no arrests or serious injuries.

"It's not worth it," a woman sobbed. "It's not worth it."

Heartened By Hampshire Swing

Romney Slates Mission To Wisconsin Saturday

PORTSMOUTH, N.H. (AP) — George Romney, heartened by his first presidential campaign swing in New Hampshire but still a self-described underdog, is opening a second front in Wisconsin.

The Michigan governor scheduled a Saturday mission to Milwaukee to open his campaign for the April 2 Wisconsin primary.

But the New Hampshire primary March 12 still tops the Romney agenda. He plans to return to this state in a week to resume his uphill race against former Vice President Richard M. Nixon.

"We've had much more support than we'd anticipated," Romney said in climaxing a five-day campaign that criss-crossed New Hampshire for nearly 1,000 miles. "We're greatly heartened."

Romney managers claimed the governor had seen more than 11,000 persons.

As Romney wound up the visit Wednesday night with a speech in Dover, a young boy in the audience asked him: "What do you think your chances of becoming president are, and why?"

"I think I'm as big an underdog right now in the presidency race as I was in the automobile business," said the candidate who once headed American Motors Corp.

"I think I'll win because I'm discussing issues more directly and I think I have more experience and background than the others who are running for election this year."

Polls, including those by Romney's campaign managers, show Nixon favored by New Hamaphire voters although he has not announced as a presidential candidate.

While President Johnson delivered his State of the Union address before Congress and television cameras, Romney was speaking to some 175 persons at a Dover school cafeteria.

Romney said Johnson "seems to think that an aristocracy of public and private power has a natural right to wheel and deal and bargain out policy at the top—while the people stand by helpless."

Romney said that invites "all but the very powerful to accept irresponsibility," even violence.

Romney also had a challenge for his Republican presidential rivals, saying any man who seeks the presidency should "spell out at least the outline of an acceptable settlement" in Vietnam.

He said voters should insist on this.

Romney's formula is neutralization of Vietnam and he underscored it during his campaign rounds with demands for reform and broadened participation in the Saigon government.

George and Martha Washington were married at St. Peter's Episcopal Church in Tunstall, New Kent County, Va., on Jan. 6, 1759.

ANSWERS YOUR PROBLEMS

Dear Ann Landers: You've been led astray. I refer to Ol' Scottie's letter, advising people to get their money's worth by leaving the electric light burning for 100 minutes since (according to him) the energy expended to turn the light on is spent the moment the light goes on.

That old fable has been floating around ever since Edison invented the carbon filament lamp.

A simple experiment can prove that switching a light does not consume extra energy. Turn off all the lights and appliances and watch the aluminum disc on your electric meter. This is what determines the cost of the electricity you use.

The disc will move very slowly, because of power consumed by items permanently attached, such as electric clocks, making perhaps one or two revolutions per minute. Then turn a 100-watt bulb on and off several times. You'll note that the power consumed is quite constant during the time the bulb is on.

If Ol' Scottie was right, the disc would spin like a top. — OLD E.E. OF LIBERTYVILLE.

-:-

Dear Ol' E.E.: That's no 100-watt bulb — that's my face! You are right. I was duped. And now a word to Ol' Scottie: Why don't you make like Ben Franklin, Buster? Go fly a kite.

He's Chicken

Dear Ann: I've been going with Herbie for three years. We set the wedding date twice but both times the wedding had to be postponed because Herbie became severely ill.

In case you think he was faking me out, you're wrong. The doctor assured me that Herbie was sick with genuine gastrointestinal attacks both times.

This past year, however, whenever I have asked him to set a date, he's said the following: (1) The money he saved to get married went for tonsil operations for his two nephews; (2) he is afraid I'll get pregnant right away and he doesn't know if he can stand children; (3) he has a couple of warts on his back and he must have them removed before we get married. The doctor who was going to remove the warts went to Europe for three months.

I'd like to have a word with Herbie. What should I say? — PATIENCE WEARING THIN.

-:-

Dear Patience: Say "Goodby."

The Out Crowd

Dear Ann: My wife and I recently opened a small snack shop near the high school. Most of our teen-age customers are well-mannered but, unfortunately, some of the kids are so wild and destructive that we shudder whenever they come in.

They hit each other over the head with plates, squirt catsup and mustard on the walls, tear up all the paper napkins, set fire to the toothpicks and walk off with salt and pepper shakers, sugar bowls — everything they can lay their hands on.

Yesterday I told the troublemakers to behave or we would not let them in any more. They said a restaurant is a public place and we can't keep them out so long as they have money to pay.

Is this true? How can we protect our investment? — MOMMA AND PAPA.

-:-

Dear M and P: A restaurant or any other business has every right to refuse to admit characters who misbehave. Furthermore, you can ask them to leave if they get out of hand and if they refuse, you can call the police.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Constitutional Amendments Introduced In W.Va. House

CHARLESTON — Although voters defeated similar proposals in 1966, Del. Kenneth Auvil, D-Barbour, has introduced new versions of constitutional amendments in the West Virginia House.

The resolutions introduced Wednesday call for:

A 60-day legislative session without agenda restriction every year and a proposal to permit legislators to fix their own salaries by statute.

Reduction to a simple majority the margin needed in local elections to authorize special tax levies or bond issues.

The constitution calls for 30-day session restricted to budget matters and other business determined largely by the governor during even - numbered years.

Salaries of legislators are constitutionally established at $1,500 per year. Auvil's amendment would permit legislators to establish their salaries by state statute.

Del. W. R. "Squibb" Wilson, D-Marion, joined Auvil in sponsorship of the bond issue and levy election measures. Law stipulates that special tax levies or bond issues must be approved by at least 60 per cent of those persons voting.

Five proposed constitutional amendments were rejected by voters in 1966. They provided for a 60-day legislative session with an unlimited agenda and for legislators salaries to be boosted to $2,500.

In other legislative action Wednesday, the House passed six bills, including five election law revision measures.

The election bills would:

Permit ballot commissioners to be appointed two months earlier than present to give them more time to learn their duties.

Repeal the law prohibiting anyone who supervises or employs 10 or more registered voters from serving as election commissioner or poll clerk in that precinct.

Make county courts provide heat, light and drinking water in every voting place.

The sixth bill would grant pensions under the West Virginia judges retirement system after 15 years of service instead of 16 years as required.

The bills were sent to the Senate. The upper house had no bills at voting stage in its Wednesday session.

King Leopold II of Belgium acquired sovereignty over the now - independent Congo in 1885.

Photo Leads To Gifts For 2 Little Girls

By LOWELL MCKIRGAN
Associated Press Writer

ST. LOUIS (AP) — It was touch-and-go for a while, but Santa came through.

A photograph showing two little girls crying as they left a Christmas party empty handed has brought gifts from across the United States and Canada.

The photograph by St. Louis Post-Dispatch photographer Reynold Ferguson was taken minutes after 6-year-old Henrean Alexander, 5-year-old Algerine Norris and about 2,000 other children had been told Santa Claus had run out of toys.

The girls were among 4,500 youngsters invited to a Christmas party sponsored by management of the Pruitt-Igoe Housing Project Friday, Dec. 22. More than 11,000 persons live in the project.

The photograph of the two crying youngsters was distributed in the United States and Canada by The Associated Press Wirephoto network. The response was almost immediate.

For example the Arkansas Gazette editorial staff helped. One Gazette editor called The Associated Press bureau in St. Louis and said, "We saw the picture of the two little girls and the guys around the desk decided to take a collection. Where shall I send it?"

The picture was distributed two days before Christmas and housing project Manager Philip Thigpen reported Christmas Eve that all children had received toys.

Checks and cash are still arriving daily, both at the Pruitt-Igoe offices and at the newspaper. Thigpen said two children sent toys from Canada.

The gifts are being placed in a special fund for use, as needed, in helping the children of the developmnt.

The little girls in the picture are the products of broken homes. Algerine's mother is 27 years old and has two other children. Henrean's mother is 24 and has three other children. Neither father lives with his family.

Officials of the pottery were notified, the building was checked and then secured.

No other damage was reported. Cowey said the incident was reported about 10:30.

The resolutions introduced Wednesday call for:

A 60-day legislative session without agenda restriction every year and a proposal to permit legislators to fix their own salaries by statute.

Reduction to a simple majority the margin needed in local elections to authorize special tax levies or bond issues.

The constitution calls for 30-day session restricted to budget matters and other business determined largely by the governor during even - numbered years.

Salaries of legislators are constitutionally established at $1,500 per year. Auvil's amendment would permit legislators to establish their salaries by state statute.

Del. W. R. "Squibb" Wilson, D-Marion, joined Auvil in sponsorship of the bond issue and levy election measures. Law stipulates that special tax levies or bond issues must be approved by at least 60 per cent of those persons voting.

Five proposed constitutional amendments were rejected by voters in 1966. They provided for a 60-day legislative session with an unlimited agenda and for legislators salaries to be boosted to $2,500.

In other legislative action Wednesday, the House passed six bills, including five election law revision measures.

The election bills would:

Permit ballot commissioners to be appointed two months earlier than present to give them more time to learn their duties.

Repeal the law prohibiting anyone who supervises or employs 10 or more registered voters from serving as election commissioner or poll clerk in that precinct.

Make county courts provide heat, light and drinking water in every voting place.

The sixth bill would grant pensions under the West Virginia judges retirement system after 15 years of service instead of 16 years as required.

The bills were sent to the Senate. The upper house had no bills at voting stage in its Wednesday session.

King Leopold II of Belgium acquired sovereignty over the now - independent Congo in 1885.

Photo Leads To Gifts For 2 Little Girls

By LOWELL MCKIRGAN
Associated Press Writer

ST. LOUIS (AP) — It was touch-and-go for a while, but Santa came through.

A photograph showing two little girls crying as they left a Christmas party empty handed has brought gifts from across the United States and Canada.

The photograph by St. Louis Post-Dispatch photographer Reynold Ferguson was taken minutes after 6-year-old Henrean Alexander, 5-year-old Algerine Norris and about 2,000 other children had been told Santa Claus had run out of toys.

The girls were among 4,500 youngsters invited to a Christmas party sponsored by management of the Pruitt-Igoe Housing Project Friday, Dec. 22. More than 11,000 persons live in the project.

The photograph of the two crying youngsters was distributed in the United States and Canada by The Associated Press Wirephoto network. The response was almost immediate.

For example the Arkansas Gazette editorial staff helped. One Gazette editor called The Associated Press bureau in St. Louis and said, "We saw the picture of the two little girls and the guys around the desk decided to take a collection. Where shall I send it?"

The picture was distributed two days before Christmas and housing project Manager Philip Thigpen reported Christmas Eve that all children had received toys.

Checks and cash are still arriving daily, both at the Pruitt-Igoe offices and at the newspaper. Thigpen said two children sent toys from Canada.

The gifts are being placed in a special fund for use, as needed, in helping the children of the developmnt.

The little girls in the picture are the products of broken homes. Algerine's mother is 27 years old and has two other children. Henrean's mother is 24 and has three other children. Neither father lives with his family.

Hints from Heloise

— By Heloise Cruse —

DEAR FOLKS: Here's one for those of you who have lots of ironing to do and eventually end up with callouses. (I never really had a callous but I've had some mighty core blisters when my ironing piled up and I absolutely made myself finish it.) Cut the foot off an old nylon stocking and slit it down the back. Then wrap the leg of the stocking around the handle of your iron! Be sure to pull the stocking tight and stretch it as you wrap it around that handle. You can use a tiny safety pin to pin it.

Now this is what it's going to do:

As you iron, instead of that hard, plastic handle moving the tender skin on the inside of your hand and causing a blister or soreness, the nylon stocking will give just enough and act as a cushion or glove. This is especially good after you've ironed an hour or two and your hand starts to perspire.

You'll find ironing a lot easier.

HELOISE.

-:-

P.S. And once in a while try sprinkling a dash of talcum powder on the nylon hose. You'll be surprised at the difference.

HELOISE.

DEAR HELOISE: Do your fancy, decorative plates keep sliding down when you stand them on edge on the shelf?

If so, a strip of double-sided sticky tape either on the shelf or on the edge of the plates will sure hold them in place.

ANITA ROSS.

DEAR HELOISE: When unraveling a knitted sweater, I find it unnecessary to wind wool yarn around a bottle, then wash and wait for it to dry before usiing it again.

I have a quicker way which works perfectly! I unravel the old sweater (or whatever) and wind the yarn into a ball as you do new yarn. Then I knit the article I want to make from the kinky yarn.

When the garment is finished, I just wash it in luke warm water and shape as I would any knit article and let dry.

The garment looks like new.

M. O.

LETTER OF LAUGHTER

I quite frequently use your name.

When I see my daughter or daughter-in-law doing something the hard way, instead of giving advice (often resented by young people), I start out by saying, "I read in Heloise's column the other day . . . ."

Works beautifully.

JEAN.

-:-

I'm going to tell my daughter, "Jean said . . ."

Hope it's OK with you!

HELOISE

DEAR HELOISE: I needed a clothes hamper but found them a bit expensive. So I shopped around and purchased a plastic trash can with a swing-type lid in a large size that cost less. The soiled clothes go in easily and the top can be removed to get clothes out on wash day.

I bought a color that matched the bathmat and wastebasket in the bathroom and it looks very pretty.

MRS. GEORGE MELTON

DEAR HELOISE: We are a military family. In the past year we have had to travel over 3,000 miles by auto with three small boys — all under three years of age.

As the boys need constant supervision, I turned down the sunvisor and clip a large car mirror to it. This way I find I am able to keep watch on the back seat at all times without straining my neck.

I only turn around when the situation is about to get out of hand! Makes traveling a little more comfortable for me.

MRS. M. B. ARBUTINE.

-:-

Too bad we mothers don't have eyes in the back of our heads at times like this!

HELOISE

DEAR HELOISE: When you have a small space on a coupon or entry blank to fill in your name and address and it's hard to write it all in, just stick on one of your address labels.

It is so much easier to read than cramped handwriting.

SALLIE GARLING.

Quake Deaths Nearing 400, Report Says

PALERMO, Sicily (AP) — The known death toll in western Sicily's earthquakes neared 400 today, but U.S. Embassy men from Rome said they have found no evidence of any Americans killed or injured.

The quakes Monday wrecked a dozen towns and villages, injured more than 1,500 persons, and hundreds are still missing.

The hilly inland region is seldom visited by tourists, but the embassy in Rome sent a special staff to help the Palermo consulate handle the hundreds of queries from the United States about Americans or relatives possibly in the area.

Rescue teams, jittery from the shock of 32 tremors which followed the devastating quakes, continued poking under rubble and found two survivors Wednesday, still breathing after nearly 60 hours of confinement.

In Salaparuta, eight bodies were dug out of debris but a woman in her 60s had survived by huddling under a staircase as her two-story building disintegrated. She was taken to a field hospital in serious condition.

Dr. Francesco Scanga, Italy's chief of public hygiene, led special teams spraying the debris to avert epidemics.

Police set up patrols against looters. Four youths were arrested in Palermo Wednesday night while trying to break into a bakery.

The island's major problem remained getting food, medicine, tents and blankets to an estimated 40,000 refugees preparing to spend a fourth night in the open. They were spread in small encampments throughout the western tip of the island, with only about 3,000 tents for shelter.

"We need bread. Money is useless to us because all the shops are closed or in ruins," one refugee complained. Later, 32 tons of bread and 100 tons of pasta were flown to the island.

WASHINGTON (AP)— Four more Ohioans have died in Vietnam, the Defense Department said Wednesday.

American Casualties Rose Sharply In Viet Last Week

SAIGON (AP) — American casualties in the Vietnam war rose sharply last week. The U.S. Command reported today that 278 men were killed in action and 1,323 wounded, compared with 184 killed and 1,132 wounded the week before.

The South Vietnamese Command reported its casualties also went up markedly.

Enemy casualties last week dropped to 2,216 killed, the two commands said, a major decline from the record 2,868 reported for the previous week.

The U.S. Command said action last week was "characterized by moderate to heavy engagements."

Of the 1,323 Americans wounded last week, the command said 711 required hospitalization.

The report increased the total American combat casualties in the war to 16,549 killed and 102,197 wounded. The command said another 968 Americans are listed as missing, captured or interned since Jan. 1, 1961.

South Vietnamese headquarters reported 357 government troops were killed last week, 946 were wounded and 110 were missing or captured. These tolls are among the heaviest of the war for South Vietnamese forces.

South Vietnamese casualties reported for the week before were 263 killed, 657 wounded and 83 missing or captured.

Of the 2,216 enemy reported killed last week, South Vietnamese headquarters said 605 were killed by government troops and the rest by U.S. and other allied forces.

The U.S. Command said there were no personnel killed in action last week among other allied forces, only four wounded and none missing.

The report said there were 486,000 U.S. military personnel in South Vietnam by midnight Saturday, an increase of 4,000 over the total reported for the previous week.

The total of other foreign allied personnel was 60,000 a drop of 1,000 from the previous week.

The U.S. estimate of enemy strength was the same it has been for weeks—223,000 to 248,000 military, and 75,000 to 85,000 political workers.

Customer Says Zeiler At Store After Robbery

PITTSBURGH (AP) — A customer of grocer William Zeiler has testified she saw Zeiler at his store shortly after hearing of a "Commuter Bandit" robbery in a radio bulletin.

Annabelle Good said she heard the report "around noon" on June 30, 1966, the day the Oakland branch of the Western Pennsylvania National Bank was robbed. She said shortly after she went to Zeiler's North Side grocery and told him of the robbery. She said Zeiler hadn't heard about it.

Mrs. Good and six other witnesses testified Wednesday as the first defense witness for the 52-year-old grocer accused of taking $80,077 in eight bank robberies.

Two of the original 10 charges against Zeiler were dismissed by Judge Joseph P. Willson of U.S. District Court after the government decided not to prosecute them.

As you iron, instead of that hard, plastic handle moving the tender skin on the inside of your hand and causing a blister or soreness, the nylon stocking will give just enough and act as a cushion or glove. This is especially good after you've ironed an hour or two and your hand starts to perspire.

You'll find ironing a lot easier.

HELOISE.

-:-

P.S. And once in a while try sprinkling a dash of talcum powder on the nylon hose. You'll be surprised at the difference.

HELOISE.

DEAR HELOISE: Do your fancy, decorative plates keep sliding down when you stand them on edge on the shelf?

If so, a strip of double-sided sticky tape either on the shelf or on the edge of the plates will sure hold them in place.

ANITA ROSS.

DEAR HELOISE: When unraveling a knitted sweater, I find it unnecessary to wind wool yarn around a bottle, then wash and wait for it to dry before usiing it again.

I have a quicker way which works perfectly! I unravel the old sweater (or whatever) and wind the yarn into a ball as you do new yarn. Then I knit the article I want to make from the kinky yarn.

When the garment is finished, I just wash it in luke warm water and shape as I would any knit article and let dry.

The garment looks like new.

LETTER OF LAUGHTER

I quite frequently use your name.

When I see my daughter or daughter-in-law doing something the hard way, instead of giving advice (often resented by young people), I start out by saying, "I read in Heloise's column the other day . . . ."

Works beautifully.

JEAN.

-:-

I'm going to tell my daughter, "Jean said . . ."

Hope it's OK with you!

HELOISE

DEAR HELOISE: I needed a clothes hamper but found them a bit expensive. So I shopped around and purchased a plastic trash can with a swing-type lid in a large size that cost less. The soiled clothes go in easily and the top can be removed to get clothes out on wash day.

I bought a color that matched the bathmat and wastebasket in the bathroom and it looks very pretty.

MRS. GEORGE MELTON

DEAR HELOISE: We are a military family. In the past year we have had to travel over 3,000 miles by auto with three small boys — all under three years of age.

As the boys need constant supervision, I turned down the sunvisor and clip a large car mirror to it. This way I find I am able to keep watch on the back seat at all times without straining my neck.

I only turn around when the situation is about to get out of hand! Makes traveling a little more comfortable for me.

MRS. M. B. ARBUTINE.

-:-

Too bad we mothers don't have eyes in the back of our heads at times like this!

HELOISE

DEAR HELOISE: When you have a small space on a coupon or entry blank to fill in your name and address and it's hard to write it all in, just stick on one of your address labels.

It is so much easier to read than cramped handwriting.

Quake Deaths Nearing 400, Report Says

PALERMO, Sicily (AP) — The known death toll in western Sicily's earthquakes neared 400 today, but U.S. Embassy men from Rome said they have found no evidence of any Americans killed or injured.

The quakes Monday wrecked a dozen towns and villages, injured more than 1,500 persons, and hundreds are still missing.

The hilly inland region is seldom visited by tourists, but the embassy in Rome sent a special staff to help the Palermo consulate handle the hundreds of queries from the United States about Americans or relatives possibly in the area.

Rescue teams, jittery from the shock of 32 tremors which followed the devastating quakes, continued poking under rubble and found two survivors Wednesday, still breathing after nearly 60 hours of confinement.

In Salaparuta, eight bodies were dug out of debris but a woman in her 60s had survived by huddling under a staircase as her two-story building disintegrated. She was taken to a field hospital in serious condition.

Dr. Francesco Scanga, Italy's chief of public hygiene, led special teams spraying the debris to avert epidemics.

Police set up patrols against looters. Four youths were arrested in Palermo Wednesday night while trying to break into a bakery.

The island's major problem remained getting food, medicine, tents and blankets to an estimated 40,000 refugees preparing to spend a fourth night in the open. They were spread in small encampments throughout the western tip of the island, with only about 3,000 tents for shelter.

"We need bread. Money is useless to us because all the shops are closed or in ruins," one refugee complained. Later, 32 tons of bread and 100 tons of pasta were flown to the island.

American Casualties Rose Sharply In Viet Last Week

SAIGON (AP) — American casualties in the Vietnam war rose sharply last week. The U.S. Command reported today that 278 men were killed in action and 1,323 wounded, compared with 184 killed and 1,132 wounded the week before.

The South Vietnamese Command reported its casualties also went up markedly.

Enemy casualties last week dropped to 2,216 killed, the two commands said, a major decline from the record 2,868 reported for the previous week.

The U.S. Command said action last week was "characterized by moderate to heavy engagements."

Of the 1,323 Americans wounded last week, the command said 711 required hospitalization.

The report increased the total American combat casualties in the war to 16,549 killed and 102,197 wounded. The command said another 968 Americans are listed as missing, captured or interned since Jan. 1, 1961.

South Vietnamese headquarters reported 357 government troops were killed last week, 946 were wounded and 110 were missing or captured. These tolls are among the heaviest of the war for South Vietnamese forces.

South Vietnamese casualties reported for the week before were 263 killed, 657 wounded and 83 missing or captured.

Of the 2,216 enemy reported killed last week, South Vietnamese headquarters said 605 were killed by government troops and the rest by U.S. and other allied forces.

The U.S. Command said there were no personnel killed in action last week among other allied forces, only four wounded and none missing.

The report said there were 486,000 U.S. military personnel in South Vietnam by midnight Saturday, an increase of 4,000 over the total reported for the previous week.

The total of other foreign allied personnel was 60,000 a drop of 1,000 from the previous week.

The U.S. estimate of enemy strength was the same it has been for weeks—223,000 to 248,000 military, and 75,000 to 85,000 political workers.

Customer Says Zeiler At Store After Robbery

PITTSBURGH (AP) — A customer of grocer William Zeiler has testified she saw Zeiler at his store shortly after hearing of a "Commuter Bandit" robbery in a radio bulletin.

Annabelle Good said she heard the report "around noon" on June 30, 1966, the day the Oakland branch of the Western Pennsylvania National Bank was robbed. She said shortly after she went to Zeiler's North Side grocery and told him of the robbery. She said Zeiler hadn't heard about it.

Mrs. Good and six other witnesses testified Wednesday as the first defense witness for the 52-year-old grocer accused of taking $80,077 in eight bank robberies.

Two of the original 10 charges against Zeiler were dismissed by Judge Joseph P. Willson of U.S. District Court after the government decided not to prosecute them.

The Southeastern Conference, after several years of being overshadowed by other conferences in basketball, has reemerged this year with three teams in the Top 10 and a six-team scramble for the title.

Tennessee, with a lone home-court winning streak; Vanderbilt, which seems to be able to win the close ones, and Kentucky, with a fine sophomore crew, are all in the nations Top 10. LSU, however, with "Pistol Pete" Maravich leading the country in scoring, is second in league play only to unbeaten Tennessee. And Florida, paced by 6-11 Neal Walk, and Georgia, with 6-11 sophomore sensation Bob Lienhard, are in contention. LSU and Georgia never have been contenders in recent years. The rest of the teams in the circuit, Mississippi, Mississippi State, Alabama and Auburn, are all capable of causing trouble.

The Missouri Valley Conference has a tight race going, with no unbeaten teams and four teams having a single loss. The four are Louisville, Drake, Tulsa and Cincinnati. Memphis State, a newcomer to the league, is finding it rough, with an 0-5 mark. Bradley, Louisville and Cincinnati figure to be the chief contenders for the crown.

Northwestern is the only unbeaten team in the Big 10, but no team is out of the race in this evenly-balanced league. Indiana, Purdue, Ohio State, Wisconsin and Iowa seem to be a little ahead of the others.

Another tight battle shapes up in the Ivy League, though Princeton is the only unbeaten club. Yale, Cornell, Columbia and Dartmouth each has lost only once. All but Dartmouth have a shot at the title.

Kansas, heavy favorite to win the Big 8, is currently no better than tied for third. Utah, Brigham Young and New Mexico are all unbeaten in WAC play. Unsettled conferences are the Southwestern, where Baylor is ahead, and the OVC, presently led by Murray State.

EAST LIVERPOOL is only 18th in the UPI state scholastic basketball poll. Steubenville, despite a two-loss weekend, is 28th. Toledo Libbey and Dayton Dunbar instead of East Liverpool and Zanesville are differences between the UPI and AP Top 10s.

VERN SMITH of East Liverpool scored 20 points Monday night as the Youngstown U. JVs lost to Sharon Buhl 83-75.

DUQUESNE has moved up to ninth in the country, according to Dr. E. E. Litkenhaus' computer ratings. St. Bonaventure is fifth, Ohio State 15th, Cincinnati 22nd and Dayton 25th.

JOHN NACE, coach of the South Side Rams, and Jim Nace, coach of the Mineral Ridge Rams, are not related.

JUAN MARICHAL of the Giants, who hadn't pitched since Aug. 25, tossed a three-hit shutout in his Dominican League debut. Marichal made only 84 pitches in the nine-inning contest, walking just one.

Matty Alou of the Pirates continues to lead the Dominican League in hitting with a .385 mark. Manny Mota is 10th at .292. Another Pirate, Jose Pagan, is stroking at a .363 clip to lead the Puerto Rican League. Juan Pizarro is 11-2 with a 1.92 ERA in this loop. Indians players are doing well in the Venezuelan League. Vic Davalillo leads the loop in hitting with .382 and Luis Tiant had the top ERA with a 1.39 mark.

Football Rules Changes Should Reduce Injuries

MIAMI (AP) — Three types of guys who knowingly—but legally—contribute to college football's high toll of injuries have been outlawed by the Football Rules Committee of the National Collegiate Athletic Association.

These are the villains:

The safety who gives a fake fair catch signal, making himself immune from tackling, then throws a crushing block into an unsuspecting enemy coming down to cover the punt.

The flanker who goes wide, then cuts back into a neutral zone behind the line of scrimmage to clip a linebacker.

The lineman who goes into a sucker shift to draw the opposition offside.

These maneuvers, condoned by tricky coaches, have led to many injuries, Ivan B. Williamson, the committee chairman said Wednesday, and prohibiting them "will make football a safer game."

Under new rules, the safety who gives a fair catch signal will not be allowed to block while the ball is in play. If he does, his team draws a 15-yard penalty.

In the past, clipping has been legal in a zone three feet deep along the interior line. In the future, no player more than five yards outside this zone may enter it and throw a clip. The penalty will be the usual 15 yards.

To prevent sucker shifts, no lineman will be allowed to move before the snap of the ball once he has assumed a position with a hand on the ground. A shift will bring a five-yard penalty.

The committee, yielding to a clamor from coaches, also abolished the punt coverage rule it put into effect last season.

The one-year-old rule allowed only ends and backs of a punting team to go downfield with the snap of the ball.

But pressure from coaches to go back to the old rule, which permitted everybody to go with the snap of the ball, succeeded, although the new rule did not lead, as they expected, to a rash of injuries among ends and backs.

The tackle-eligible pass play was eliminated from the game. Williamson said some coaches had been getting illegal receivers downfield by putting numbers downfield by putting numfor ends, on tackles.

Now, centers, guards and tackles must wear numbers between 50 and 79 and no player wearing those numbers will be eligible for a pass.

Under other new rules, quarterbacks may communicate with any number of coaches on the sideline during a charged time out, instead of just one coach; the timeout period is shortened from two to 1½ minutes, and the clock will be stopped whenever a team makes a first down.

No safety will be allowed when a player intercepting a pass is carried into his end zone by his own momentum. If he does not choose to run out of the end zone, the ball will be put into play at the spot where the interception was made.

South Warriors Here Saturday

The East Liverpool Potters tomorrow night take on a team that Coach Clint McConnell says is "the best we have left on the schedule", Steubenville Central Catholic.

The Crusaders are 6-4 on the year and will be met on their home floor, the Steubenville Community Arena. Game time is 6:30 for the reserves, 8 for the varsity. This will mark the second straight Friday night East Liverpool will appear at the arena, having edged Steubenville there 52-47 last Friday. Saturday night East Liverpool will return home to face Youngstown South in a game rescheduled from last Saturday.

John Nese's Central team has beaten Wintersville 79-62, Toronto 62-41, Wellsville 66- 34, Pittsburgh Westinghouse 58-47, Mingo Junction 81-44 and Weirton Madonna 82-64. Losses were to Bishop Boyle 60-57, Coshocton 67-57, Martins Ferry 59-41 and Steubenville 54-48.

The Crusaders have good height with Ray Szypulski and Mike Berarducci both 6-4 and Brian Madden 6-2. The other starters are Dave Suba at 5-8 and Jim Fonow at 5-9. All are lettermen from last year's 2-16 outfit, and Berarducci and Madden are only juniors. Central outrebounded Wellsville, a good rebounding team, by a 3-2 ratio.

Nese noted at the beginning of the year that the Potters would be one of the toughest teams on his schedule, along with Steubenville, Coshocton and Martins Ferry. Potter fans hope that the locals can do as well as the other three teams, all of which knocked off Central.

McConnell cites the Crusaders' size and their home floor advantage as big hurdles for the Potters. He notes that Central employs a variety of defenses.

Expected to start for East Liverpool are Mitchell Jones, Jerry Christian, Bill Montgomery, Mike McVay and Earl Diddle. Reserve guard Dan Cunningham has been out with the flu but should be ready by Friday.

Saturday night Youngstown South shows at the Memorial Auditorium. The warriors were the last team to beat the Potters during the regular season, administering a 68-67 defeat at East Liverpool last year. They have good height, with Otis Darcey and Ray Griffin at 6-4, Larry Gates at 6-3, Fred Cooper at 6-2 and Don Cramb and Julias Livas at 5-10. The starters will come from among these six. Pete Popovich's team is 5-3 so far, with their last effort a 80-51 thrashing of Youngstown North. They also beat Warren Western Reserve 64-61, Girard 72-56, Woodrow Wilson 63-33 and Clairton 72-53. Losses came to Cardinal Mooney 45-43, Cuyahoga Falls 71-56 and Ellwood City 63-61.

Chico Vaughn Gets 40, Pipers Whip Indiana

By The Associated Press

Chico Vaughn was hitting the long ball but Minnesota stayed in front.

Vaughn, scored 40 points, with five three-point baskets in his total, as the Pittsburgh Pipers crushed Indiana 137-101 in an American Basketbal Association game Wednesday night.

But the Muskies remained one-half game ahead of Pittsburgh in the league's Eastern Division, beating Anaheim 119-115.

Vaughn had plenty of help in the scoring department as Connie Hawkins had 28 points, Charlie Williams had 23 and Art Heyman 22. for the Pipers.

In other ABA games, New Jersey beat Kentucky 103-96 and New Orleans topped Houston 110-103.

Mel Daniels scored 30 points for Minnesota, which overcame Anaheim despite a 40-point performance by Ben Warley.

Dan Anderson hit a three-point play to put New Jersey ahead late in the game. He led the American scorers with 31 points while Louie Dampier had 30 for Kentucky.

Doug Moe's 26 points topped the New Orleans as the Buccaneers staved off a late Houston rally to win. Larry Lentz topped six Maverick scorers with double figures with 18 points.

Monroe's Lapse Gives Knicks Win Over Bullets

By The Associated Press

Earl Monroe made 14 shots in a row, but the one that mattered was the one he missed.

When Monroe missed an easy layup with seconds left in the game Wednesday night the Baltimore Bullets missed a chance to tie the New York Knicks, who won 111-109.

Monroe's lapse negated a 26-point performance that led the Bullets, during which he made his first 14 free throws. Dick Barnett scored the winning basket for the Knicks, who were led by Cazzie Russell's 30 points.

In other National Basketball Association action, Boston downed St. Louis 114-102, Detroit topped San Francisco 117-109, San Diego beat Chicago 110-104 and Los Angeles took Philadelphia 125-116.

Bailey Howell led a comeback attack for Boston late in the third period. John Havlicek led the Celtic scorers with 35 points while Len Wilkens led the Hawks with 32.

Dave Bing and Eddie Miles led a late surge for Detroit that broke a 107-107 tie. Bing finished with 31 points while Nate Thurmond had 32 for the Warriors.

San Deigo saw an 18-point fourth-quarter lead drop to just three with a minute left, but a clutch shot by Jon McGlocklin that put the Rockets out of trouble. McGlocklin topped the scorers with 28 points. Keith Erickson led the Bulls with 20.

The Lakers broke a five-game losing streak as Jerry West, with 39 points, and Gail Goodrich, with 29, had their highs for the season. At one point late in the first half, the Lakers outscored the 76ers 20-1. Wally Jones was tops for Philadelphia with 20 points.

Arnie Palmer Kaiser Golf Favorite

NAPA, Calif. (AP) — Arnold Palmer loomed as a top favorite today with a course for his style in the $125,000 Kaiser International Golf Tournament, but watch out for the new rule.

Silverado Country Club's north course plays long but without too much trouble on its 6,879 yards unless a golf ball finds it way into a creek or a couple of ponds.

Palmer, Miller Barber and Bobby Nichols each shot four-under-par 68 in Wednesday's pro-amateur prelude worth $650 to each.

The winner after the regular 72-hole event Sunday collects $25,000.

Johnny Pott, winner of the Bing Crosby Tournament last Sunday, found out about the new rule the hard way but without too much money at stake.

Last Thursday the Professional Golfer's Association agreed to the U.S. Golf Association's new rule prohibiting croquet-style putting.

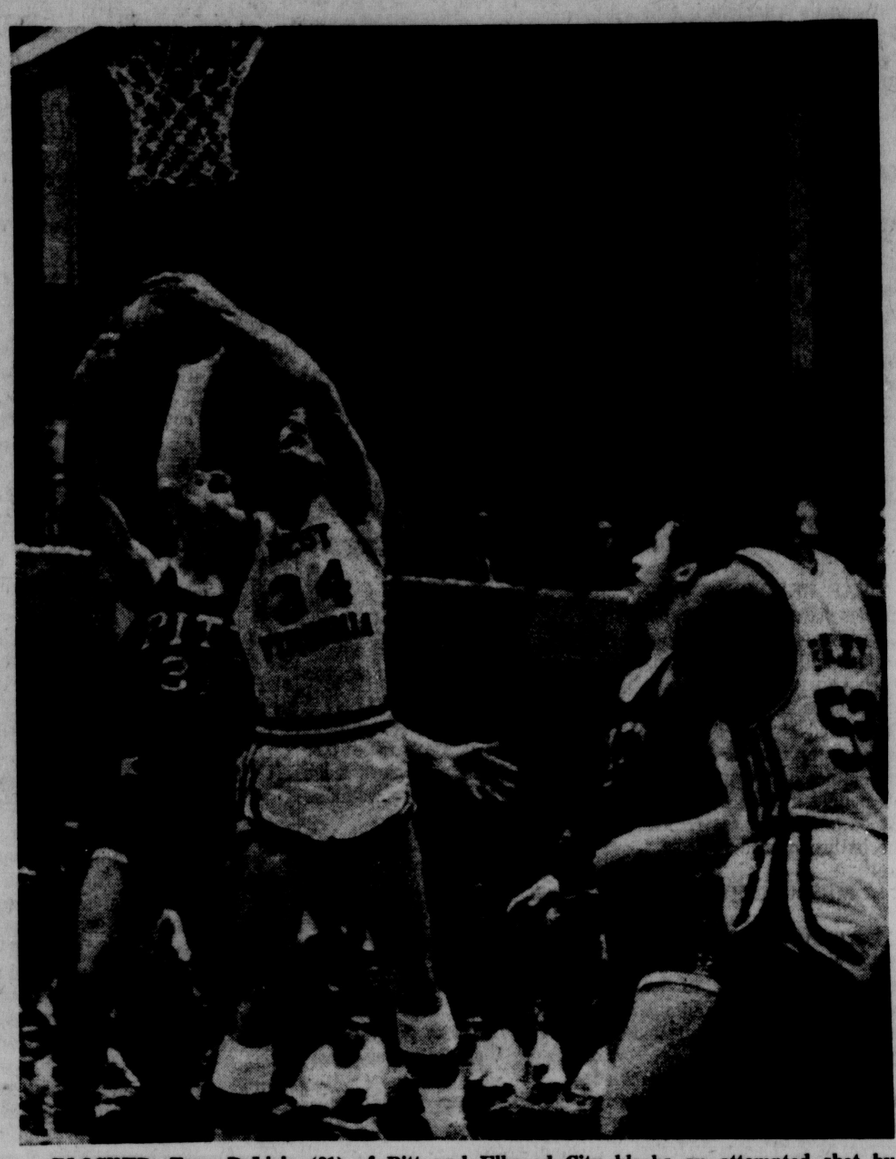

Pott doesn't putt with that style, but the new rule also prohibits either foot crossing a direct line drawn through ball and hole.

Georgia, Iowa State Win

By ED SCHUYLER JR.

Beware of the Bulldog—even reserve Bulldogs.

Drake fought off Iowa State for a 72-67 victory over Iowa State Wednesday night, and it was a couple of reserves who put the bite into the Bulldogs' attack when it was needed.

In avenging an earlier defeat and running their record to 12-2 the Bulldogs built up a 28-10 lead, but Iowa State fought back to tie at 52-52 with 8:21 left.

Then, with Drake leading by just one point, 58-57, two foul shots by Willie McCarter, the key Bulldog, and four points by reserve Ron Gwin sparked the Bulldogs to a 66-57 lead with 3:15 remaining.

Iowa State again rallied, closing to within 69-65 in the final minute, but baskets by McCarter and another reserve, Nelson Whitaker, clinched it for Drake.

McCarter scored 22 points for the Missouri Valley Conference Bulldogs. Bill Cain put in 18 for Iowa State, a Big Eight team.

Georgia scored its last six points on foul shots, including four by Dick McIntosh, and edged Mississippi State 81-77 in a Southeastern Conference game at Starkville, Miss.

Georgia, 3-3 in the league and 8-4 over-all, was led by 6-foot-11 sophomore Bob Lienhart's 29 points. Tommy Payne collected 28 for State, 2-4 in the SEC and 6-8 over-all.

Virginia Tech, which got off to a stumbling start this season, posted its sixth straight victory by overcoming a 10-point deficit and downing Eastern Kentucky 84-74 at Blacksburg, Va. Tech now is 9-6.

None of the teams in The Associated Press' major college Top Ten saw action, but the top two ranked small college clubs posted victories.

No. 1 Evansville drubbed Valparaiso 97-74 at home, and second-ranked Kentucky Wesleyan set a school record by thrashing Kentucky State 125-80, also at home.

Western Michigan edged Ohio University 83-79, West Virginia trounced Pittsburgh 90-64, St. John's of New York topped St. Joseph's of Philadelphia 80-72, Notre Dame nipped Butler 82-75, Western Kentucky shaded Dayton 75-74 in overtime, Maryland edged Navy 76-62 and Georgia Tech beat Furman 68-61 in other home-court victories.

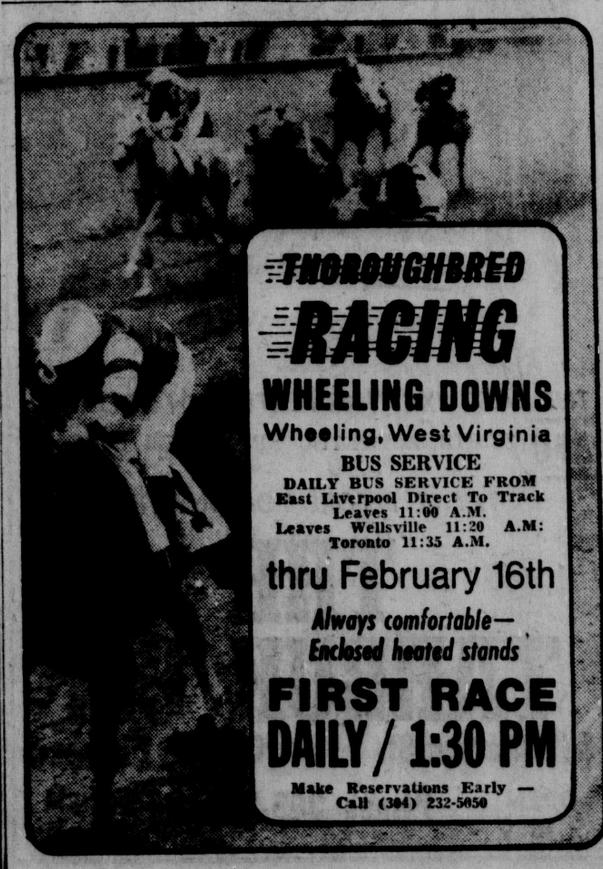

In away triumphs, Villanova drubbed Pennsylvania 75-45, Cornell whipped Colgate 82-73, Massachusetts downed Holy Cross 71-65, St. Francis, Pa., clobbered Geneva 89-75 and St. Peter's N.J., defeated American University 89-81.

The Southeastern Conference, after several years of being overshadowed by other conferences in basketball, has reemerged this year with three teams in the Top 10 and a six-team scramble for the title.

Tennessee, with a lone home-court winning streak; Vanderbilt, which seems to be able to win the close ones, and Kentucky, with a fine sophomore crew, are all in the nations Top 10. LSU, however, with "Pistol Pete" Maravich leading the country in scoring, is second in league play only to unbeaten Tennessee. And Florida, paced by 6-11 Neal Walk, and Georgia, with 6-11 sophomore sensation Bob Lienhard, are in contention. LSU and Georgia never have been contenders in recent years. The rest of the teams in the circuit, Mississippi, Mississippi State, Alabama and Auburn, are all capable of causing trouble.

The Missouri Valley Conference has a tight race going, with no unbeaten teams and four teams having a single loss. The four are Louisville, Drake, Tulsa and Cincinnati. Memphis State, a newcomer to the league, is finding it rough, with an 0-5 mark. Bradley, Louisville and Cincinnati figure to be the chief contenders for the crown.

Northwestern is the only unbeaten team in the Big 10, but no team is out of the race in this evenly-balanced league. Indiana, Purdue, Ohio State, Wisconsin and Iowa seem to be a little ahead of the others.

Another tight battle shapes up in the Ivy League, though Princeton is the only unbeaten club. Yale, Cornell, Columbia and Dartmouth each has lost only once. All but Dartmouth have a shot at the title.

Kansas, heavy favorite to win the Big 8, is currently no better than tied for third. Utah, Brigham Young and New Mexico are all unbeaten in WAC play. Unsettled conferences are the Southwestern, where Baylor is ahead, and the OVC, presently led by Murray State.

EAST LIVERPOOL is only 18th in the UPI state scholastic basketball poll. Steubenville, despite a two-loss weekend, is 28th. Toledo Libbey and Dayton Dunbar instead of East Liverpool and Zanesville are differences between the UPI and AP Top 10s.

VERN SMITH of East Liverpool scored 20 points Monday night as the Youngstown U. JVs lost to Sharon Buhl 83-75.

DUQUESNE has moved up to ninth in the country, according to Dr. E. E. Litkenhaus' computer ratings. St. Bonaventure is fifth, Ohio State 15th, Cincinnati 22nd and Dayton 25th.

JOHN NACE, coach of the South Side Rams, and Jim Nace, coach of the Mineral Ridge Rams, are not related.

JUAN MARICHAL of the Giants, who hadn't pitched since Aug. 25, tossed a three-hit shutout in his Dominican League debut. Marichal made only 84 pitches in the nine-inning contest, walking just one.

Matty Alou of the Pirates continues to lead the Dominican League in hitting with a .385 mark. Manny Mota is 10th at .292. Another Pirate, Jose Pagan, is stroking at a .363 clip to lead the Puerto Rican League. Juan Pizarro is 11-2 with a 1.92 ERA in this loop. Indians players are doing well in the Venezuelan League. Vic Davalillo leads the loop in hitting with .382 and Luis Tiant had the top ERA with a 1.39 mark.

Football Rules Changes Should Reduce Injuries

MIAMI (AP) — Three types of guys who knowingly—but legally—contribute to college football's high toll of injuries have been outlawed by the Football Rules Committee of the National Collegiate Athletic Association.

These are the villains:

The safety who gives a fake fair catch signal, making himself immune from tackling, then throws a crushing block into an unsuspecting enemy coming down to cover the punt.

The flanker who goes wide, then cuts back into a neutral zone behind the line of scrimmage to clip a linebacker.

The lineman who goes into a sucker shift to draw the opposition offside.

These maneuvers, condoned by tricky coaches, have led to many injuries, Ivan B. Williamson, the committee chairman said Wednesday, and prohibiting them "will make football a safer game."

Under new rules, the safety who gives a fair catch signal will not be allowed to block while the ball is in play. If he does, his team draws a 15-yard penalty.

In the past, clipping has been legal in a zone three feet deep along the interior line. In the future, no player more than five yards outside this zone may enter it and throw a clip. The penalty will be the usual 15 yards.

To prevent sucker shifts, no lineman will be allowed to move before the snap of the ball once he has assumed a position with a hand on the ground. A shift will bring a five-yard penalty.

The committee, yielding to a clamor from coaches, also abolished the punt coverage rule it put into effect last season.

The one-year-old rule allowed only ends and backs of a punting team to go downfield with the snap of the ball.

But pressure from coaches to go back to the old rule, which permitted everybody to go with the snap of the ball, succeeded, although the new rule did not lead, as they expected, to a rash of injuries among ends and backs.

The tackle-eligible pass play was eliminated from the game. Williamson said some coaches had been getting illegal receivers downfield by putting numbers downfield by putting numfor ends, on tackles.

Now, centers, guards and tackles must wear numbers between 50 and 79 and no player wearing those numbers will be eligible for a pass.

Under other new rules, quarterbacks may communicate with any number of coaches on the sideline during a charged time out, instead of just one coach; the timeout period is shortened from two to 1½ minutes, and the clock will be stopped whenever a team makes a first down.

No safety will be allowed when a player intercepting a pass is carried into his end zone by his own momentum. If he does not choose to run out of the end zone, the ball will be put into play at the spot where the interception was made.

South Warriors Here Saturday

By TURK PIERCE

The East Liverpool Potters tomorrow night take on a team that Coach Clint McConnell says is "the best we have left on the schedule", Steubenville Central Catholic.

The Crusaders are 6-4 on the year and will be met on their home floor, the Steubenville Community Arena. Game time is 6:30 for the reserves, 8 for the varsity. This will mark the second straight Friday night East Liverpool will appear at the arena, having edged Steubenville there 52-47 last Friday. Saturday night East Liverpool will return home to face Youngstown South in a game rescheduled from last Saturday.

John Nese's Central team has beaten Wintersville 79-62, Toronto 62-41, Wellsville 66- 34, Pittsburgh Westinghouse 58-47, Mingo Junction 81-44 and Weirton Madonna 82-64. Losses were to Bishop Boyle 60-57, Coshocton 67-57, Martins Ferry 59-41 and Steubenville 54-48.

The Crusaders have good height with Ray Szypulski and Mike Berarducci both 6-4 and Brian Madden 6-2. The other starters are Dave Suba at 5-8 and Jim Fonow at 5-9. All are lettermen from last year's 2-16 outfit, and Berarducci and Madden are only juniors. Central outrebounded Wellsville, a good rebounding team, by a 3-2 ratio.

Nese noted at the beginning of the year that the Potters would be one of the toughest teams on his schedule, along with Steubenville, Coshocton and Martins Ferry. Potter fans hope that the locals can do as well as the other three teams, all of which knocked off Central.

McConnell cites the Crusaders' size and their home floor advantage as big hurdles for the Potters. He notes that Central employs a variety of defenses.

Expected to start for East Liverpool are Mitchell Jones, Jerry Christian, Bill Montgomery, Mike McVay and Earl Diddle. Reserve guard Dan Cunningham has been out with the flu but should be ready by Friday.

Saturday night Youngstown South shows at the Memorial Auditorium. The warriors were the last team to beat the Potters during the regular season, administering a 68-67 defeat at East Liverpool last year. They have good height, with Otis Darcey and Ray Griffin at 6-4, Larry Gates at 6-3, Fred Cooper at 6-2 and Don Cramb and Julias Livas at 5-10. The starters will come from among these six. Pete Popovich's team is 5-3 so far, with their last effort a 80-51 thrashing of Youngstown North. They also beat Warren Western Reserve 64-61, Girard 72-56, Woodrow Wilson 63-33 and Clairton 72-53. Losses came to Cardinal Mooney 45-43, Cuyahoga Falls 71-56 and Ellwood City 63-61.

Chico Vaughn Gets 40, Pipers Whip Indiana

By The Associated Press

Chico Vaughn was hitting the long ball but Minnesota stayed in front.

Vaughn, scored 40 points, with five three-point baskets in his total, as the Pittsburgh Pipers crushed Indiana 137-101 in an American Basketbal Association game Wednesday night.

But the Muskies remained one-half game ahead of Pittsburgh in the league's Eastern Division, beating Anaheim 119-115.

Vaughn had plenty of help in the scoring department as Connie Hawkins had 28 points, Charlie Williams had 23 and Art Heyman 22. for the Pipers.

In other ABA games, New Jersey beat Kentucky 103-96 and New Orleans topped Houston 110-103.

Mel Daniels scored 30 points for Minnesota, which overcame Anaheim despite a 40-point performance by Ben Warley.

Dan Anderson hit a three-point play to put New Jersey ahead late in the game. He led the American scorers with 31 points while Louie Dampier had 30 for Kentucky.

Doug Moe's 26 points topped the New Orleans as the Buccaneers staved off a late Houston rally to win. Larry Lentz topped six Maverick scorers with double figures with 18 points.

Monroe's Lapse Gives Knicks Win Over Bullets

By The Associated Press

Earl Monroe made 14 shots in a row, but the one that mattered was the one he missed.

When Monroe missed an easy layup with seconds left in the game Wednesday night the Baltimore Bullets missed a chance to tie the New York Knicks, who won 111-109.

Monroe's lapse negated a 26-point performance that led the Bullets, during which he made his first 14 free throws. Dick Barnett scored the winning basket for the Knicks, who were led by Cazzie Russell's 30 points.

In other National Basketball Association action, Boston downed St. Louis 114-102, Detroit topped San Francisco 117-109, San Diego beat Chicago 110-104 and Los Angeles took Philadelphia 125-116.

Bailey Howell led a comeback attack for Boston late in the third period. John Havlicek led the Celtic scorers with 35 points while Len Wilkens led the Hawks with 32.

Dave Bing and Eddie Miles led a late surge for Detroit that broke a 107-107 tie. Bing finished with 31 points while Nate Thurmond had 32 for the Warriors.

San Deigo saw an 18-point fourth-quarter lead drop to just three with a minute left, but a clutch shot by Jon McGlocklin that put the Rockets out of trouble. McGlocklin topped the scorers with 28 points. Keith Erickson led the Bulls with 20.

The Lakers broke a five-game losing streak as Jerry West, with 39 points, and Gail Goodrich, with 29, had their highs for the season. At one point late in the first half, the Lakers outscored the 76ers 20-1. Wally Jones was tops for Philadelphia with 20 points.

Arnie Palmer Kaiser Golf Favorite

NAPA, Calif. (AP) — Arnold Palmer loomed as a top favorite today with a course for his style in the $125,000 Kaiser International Golf Tournament, but watch out for the new rule.

Silverado Country Club's north course plays long but without too much trouble on its 6,879 yards unless a golf ball finds it way into a creek or a couple of ponds.

Palmer, Miller Barber and Bobby Nichols each shot four-under-par 68 in Wednesday's pro-amateur prelude worth $650 to each.

The winner after the regular 72-hole event Sunday collects $25,000.

Johnny Pott, winner of the Bing Crosby Tournament last Sunday, found out about the new rule the hard way but without too much money at stake.

Last Thursday the Professional Golfer's Association agreed to the U.S. Golf Association's new rule prohibiting croquet-style putting.

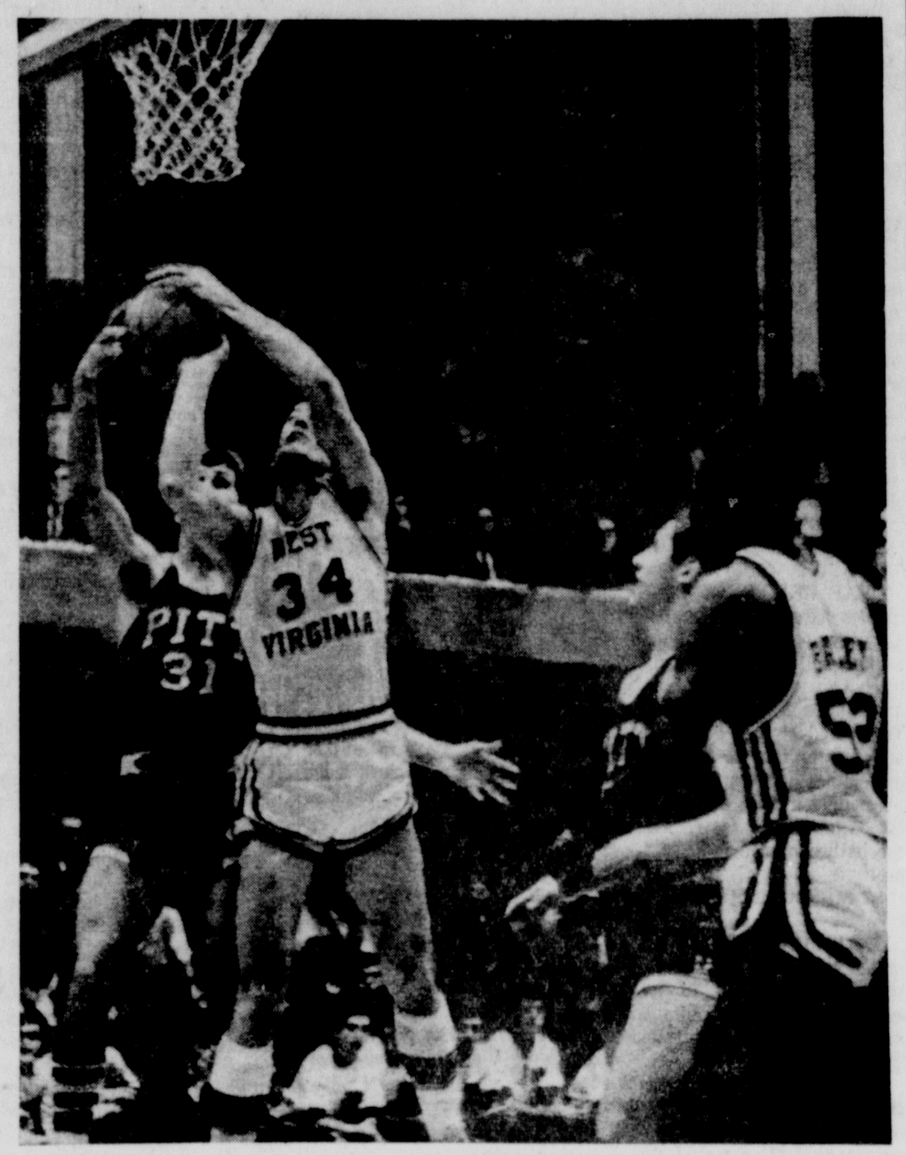

Pott doesn't putt with that style, but the new rule also prohibits either foot crossing a direct line drawn through ball and hole.

Georgia, Iowa State Win

By ED SCHUYLER JR.

Beware of the Bulldog—even reserve Bulldogs.

Drake fought off Iowa State for a 72-67 victory over Iowa State Wednesday night, and it was a couple of reserves who put the bite into the Bulldogs' attack when it was needed.

In avenging an earlier defeat and running their record to 12-2 the Bulldogs built up a 28-10 lead, but Iowa State fought back to tie at 52-52 with 8:21 left.

Then, with Drake leading by just one point, 58-57, two foul shots by Willie McCarter, the key Bulldog, and four points by reserve Ron Gwin sparked the Bulldogs to a 66-57 lead with 3:15 remaining.

Iowa State again rallied, closing to within 69-65 in the final minute, but baskets by McCarter and another reserve, Nelson Whitaker, clinched it for Drake.

McCarter scored 22 points for the Missouri Valley Conference Bulldogs. Bill Cain put in 18 for Iowa State, a Big Eight team.

Georgia scored its last six points on foul shots, including four by Dick McIntosh, and edged Mississippi State 81-77 in a Southeastern Conference game at Starkville, Miss.

Georgia, 3-3 in the league and 8-4 over-all, was led by 6-foot-11 sophomore Bob Lienhart's 29 points. Tommy Payne collected 28 for State, 2-4 in the SEC and 6-8 over-all.

Virginia Tech, which got off to a stumbling start this season, posted its sixth straight victory by overcoming a 10-point deficit and downing Eastern Kentucky 84-74 at Blacksburg, Va. Tech now is 9-6.

None of the teams in The Associated Press' major college Top Ten saw action, but the top two ranked small college clubs posted victories.

No. 1 Evansville drubbed Valparaiso 97-74 at home, and second-ranked Kentucky Wesleyan set a school record by thrashing Kentucky State 125-80, also at home.

Western Michigan edged Ohio University 83-79, West Virginia trounced Pittsburgh 90-64, St. John's of New York topped St. Joseph's of Philadelphia 80-72, Notre Dame nipped Butler 82-75, Western Kentucky shaded Dayton 75-74 in overtime, Maryland edged Navy 76-62 and Georgia Tech beat Furman 68-61 in other home-court victories.

Penguins Tie Oakland

Montreal Tops Detroit, Continue Hot Streak

By The Associated Press

Here comes Montreal and there goes Detroit, moving just as fast, but in opposite directions.

They passed Wednesday night and the high-flying Canadiens gave the Red Wings another kick downward in the National Hockey League's East Division by crushing them 6-1 in Montreal.

The Montreal victory was its sixth straight and eighth in 10 games with two ties, a string that has moved the revitalized Canadiens from last place with the lowest-scoring team in the division to third with the explosive attack of old.

Detroit, winless in six games with one tie, sank deeper into the cellar, five points behind Toronto and New York.

The Rangers pulled into a tie for fourth with the idle Maple Leafs by surprising league-leading Chicago 4-2 in Chicago while St. Louis bombed visiting Minnesota 5-0 and host Oakland and Pittsburgh tied 1-1 in the West Division.

Montreal, which has not scored less than four goals in a game during its winning streak, pulled within one point of second-place Boston and three of the Black Hawks as Jean Beliveau banged home three goals and Dick Duff added two.

Phil Goyette's goal at 3:35 of the final session and another by Camille Henry 56 seconds later for New York dealt the Black Hawks only their second loss in 19 games. Power play goals by Bernie Geoffrion and Don Marshall had brought the Rangers twice from behind.

Glenn Hall recorded his 71st career shut out while Red Berenson led a 41-shot attack at Gary Bauman with two goals, his ninth and 10th.

Oakland and Pittsburgh traded second-period power play goals, John Brenneman hitting first for the Seals at 9:55 and Andy Bathgate tying it for Pittsburgh at 12:56. The tie pulled the Penguins into a second place deadlock in the West division with Minnesota.

Sports Quiz

Here is a sports quiz to test the knowledge of area sports fans.

The quiz will appear in The Review every Thursday, along with the answers to the preceeding week's quiz and the names of the people who got the most questions right. Winners will receive two tickets to a Pittsburgh Penguins game of their choice.

The questions are not meant to be easy, and pertain in many cases to what is sometimes called "sports trivia." Please do not phone the Review with answers or questions about the quiz. Answers may be mailed in or dropped off at the Review before noon on Wednesdays.

Gary Caruso of Marrietta College, the winner of the first weeks quiz with eight right, got nine right this week, but this got him no better than a tie with Earl Diddle of the Ceramic Hotel.

Answers to the college nickname questions were Rattlers — Florida A&M; Peacocks — St. Peters (N. J.) and Upper Iowa; Anteaters — UC, Irvine; Gorillas — Pittsburg St. (Kan.); Blackbirds — Long Island U. The two teams designated major colleges by the football writers association that still use the single wing are Princeton and East Carolina. Howie Young of Detroit holds the NHL record for penalty minutes in a season; DeMatha Catholic of Hyattsville, Md., led by Bernie Williams of LaSalle and Bob Whitmore of Notre Dame, beat Power Memorial with Lew Alcindor; Dick Barnett of the Knicks attended Tennessee St. (formerly Tennessee A & I); and Maureen Connolly was the tennis player injured while horseback riding.

Caruso missed the single wing question, tabbing Princeton and Tennessee as the schools, while Diddle couldn't come up with UC, Irvine.

This week's questions:

1. What college basketball player scored the most points in a single game?
2. What major college basketball player scored the most points in a single game?
3. What college basketball player scored the most points in a season?
4. What college basketball player had the best average for a season?
5. What college basketball player scored the most points in a career?
6. What three major college basketball players scored over 1,000 points in a season?
7. Who was the "Owl without a vowel"?
8. What college basketball player had the most rebounds in a season?
9. Who was the All-American basketball player who was killed in a freak accident with a live wire in his senior year?
10. What state produced the major college basketball scoring champion for five straight years in the 1950s.

Unbeaten LIU Ranked Only Third

By The Associated Press

The Long Island University Blackbirds, only unbeaten team among those ranked in The Associated Press small-college basketball poll, may have a tough time maintaining their perfect record Saturday night.

The Blackbirds, idle the past two weeks, next play Philadelphia Textile at the Palestra in Philadelphia. The Rams are unranked, but own a 10-1 mark and have lost only to second-ranked Kentucky Wesleyan, 76-65 on Dec. 13.

LIU, 11-0, held third place in the latest poll, accumulating 100 points on a basis of 10 for a first-place vote, 9 for second, 8 for third, etc. A total of 15 sports writers and broadcasters on a national panel participated in the balloting which was based on games through last Saturday.

Evansville maintained a strong lead. The Purple Aces drew nine votes for first place and 141 points. Kentucky Wesleyan, with 106 points remained in the No. 2 spot. There were no changes in the fourth and fifth positions, occupied by Indiana State and Southwest Missouri State, respectively.

Southwestern Louisiana advanced two places to sixth while Trinity, Tex., dipped one position to seventh and Guilford climbed from ninth to eighth.

Pan American and Lincoln, Mo., ninth and 10th, respectively, are the new teams in the first 10. They replaced San Diego State and Winston-Salem.

The Top Ten with first-place votes in parentheses and total points.

Track Feud Legislation Introduced

WASHINGTON (AP) — Sen. Robert P. Griffin, R-Mich., says the time has come for a bill of rights for amateur athletes to protect them from the feuding of rival sports federations.

He announced he was introducing today a bill that would ban the disqualification from competition of any amateur athlete because he had engaged in a prior meet staged by a rival organization.

The legislation also would prevent sports associations from imposing what Griffin called unreasonable restraints on an athlete's freedom to participate in sports events.

An athlete could go into court for an injunction and violations of the bill would be punishable by a fine of up to $1,000 and six months' imprisonment.

Griffin's bill is aimed at the protracted feud between the NCAA and the AAU over control of track and field meets.

He said the feud "threatens to seriously cripple our Olympic team this year. Just as it has threatened to do in the past."

"The rights and interests of the individual athletes have been too long ignored," Griffin said in a prepared Senate speech. "The patience of the Congress and the American people is worn thin by those who have made athletes the innocent victims of a senseless war."

Kicker John Church beat out quarterback John Cartwright in the Navy football scoring race last season, 41 points to 40.

Bengals Looking Ahead To College Draft Picks

JACKSONVILLE, Fla. (AP) — The college draft is the next shopping stop for the American Football League's new-born Cincinnati Bengals.

Paul Brown's Bengals were stocked with 40 veteran players in the AFL's expansion draft here but the head coach and owner of the new club made it clear that he expected more talent to come out of the college market.

"One thing I won't do," said Brown, "is to mortgage my club by trading draft picks for older players."

The Bengals, who choose second behind only Minnesota in the Jan. 30 collegiate draft, are likely to go after a quarterback. There are three good ones available, UCLA's Gary Beban, Alabama's Kenny Stabler and Florida State's Kim Hammond.

Cincinnati already owns one signal caller—John Stofa. He was acquired in a pre-draft trade with Miami in which the Bengals surrendered two collegiate picks.

"It was a good trade for us," said Brown, "because we got an experienced quarterback, something you can't find everywhere."

Stofa, 25, sat out last season with a broken ankle and he'll have plenty of medical company in the Bengals' backfield.

Two of Brown's picks in the expansion draft are question marks because of severe leg injuries. Buffalo's Bobby Burnett, the AFL's rookie of the year in 1966, will try to bounce back from a broken right leg and Cookie Gilchrist of Denver hopes to shake the effects of surgery on his left knee.

The Bengals also got an all-star—linebacker Frank Buncom from San Diego—as well as the Chargers' place kicker—Dick Van Raaphorst.

Kansas City contributed two familiar names to the Bengals in split end Chris Burford and linebacker Sherrill Headrick, both AFL veterans.

Up front, Cincinnati got Buffalo's Gary Bugenhagen, an All-American at Syracuse two years ago, and Oakland's Richard Sligh, a 7-foot, 300-pound defensive tackle, among others.

Penguins Tie Oakland

Montreal Tops Detroit, Continue Hot Streak

By The Associated Press

Here comes Montreal and there goes Detroit, moving just as fast, but in opposite directions.

They passed Wednesday night and the high-flying Canadiens gave the Red Wings another kick downward in the National Hockey League's East Division by crushing them 6-1 in Montreal.

The Montreal victory was its sixth straight and eighth in 10 games with two ties, a string that has moved the revitalized Canadiens from last place with the lowest-scoring team in the division to third with the explosive attack of old.

Detroit, winless in six games with one tie, sank deeper into the cellar, five points behind Toronto and New York.

The Rangers pulled into a tie for fourth with the idle Maple Leafs by surprising league-leading Chicago 4-2 in Chicago while St. Louis bombed visiting Minnesota 5-0 and host Oakland and Pittsburgh tied 1-1 in the West Division.

Montreal, which has not scored less than four goals in a game during its winning streak, pulled within one point of second-place Boston and three of the Black Hawks as Jean Beliveau banged home three goals and Dick Duff added two.

Phil Goyette's goal at 3:35 of the final session and another by Camille Henry 56 seconds later for New York dealt the Black Hawks only their second loss in 19 games. Power play goals by Bernie Geoffrion and Don Marshall had brought the Rangers twice from behind.

Glenn Hall recorded his 71st career shut out while Red Berenson led a 41-shot attack at Gary Bauman with two goals, his ninth and 10th.

Oakland and Pittsburgh traded second-period power play goals, John Brenneman hitting first for the Seals at 9:55 and Andy Bathgate tying it for Pittsburgh at 12:56. The tie pulled the Penguins into a second place deadlock in the West division with Minnesota.

Sports Quiz

Here is a sports quiz to test the knowledge of area sports fans.

The quiz will appear in The Review every Thursday, along with the answers to the preceeding week's quiz and the names of the people who got the most questions right. Winners will receive two tickets to a Pittsburgh Penguins game of their choice.

The questions are not meant to be easy, and pertain in many cases to what is sometimes called "sports trivia." Please do not phone the Review with answers or questions about the quiz. Answers may be mailed in or dropped off at the Review before noon on Wednesdays.

Gary Caruso of Marrietta College, the winner of the first weeks quiz with eight right, got nine right this week, but this got him no better than a tie with Earl Diddle of the Ceramic Hotel.

Answers to the college nickname questions were Rattlers — Florida A&M; Peacocks — St. Peters (N. J.) and Upper Iowa; Anteaters — UC, Irvine; Gorillas — Pittsburg St. (Kan.); Blackbirds — Long Island U. The two teams designated major colleges by the football writers association that still use the single wing are Princeton and East Carolina. Howie Young of Detroit holds the NHL record for penalty minutes in a season; DeMatha Catholic of Hyattsville, Md., led by Bernie Williams of LaSalle and Bob Whitmore of Notre Dame, beat Power Memorial with Lew Alcindor; Dick Barnett of the Knicks attended Tennessee St. (formerly Tennessee A & I); and Maureen Connolly was the tennis player injured while horseback riding.

Caruso missed the single wing question, tabbing Princeton and Tennessee as the schools, while Diddle couldn't come up with UC, Irvine.

This week's questions:

1. What college basketball player scored the most points in a single game?
2. What major college basketball player scored the most points in a single game?
3. What college basketball player scored the most points in a season?
4. What college basketball player had the best average for a season?
5. What college basketball player scored the most points in a career?
6. What three major college basketball players scored over 1,000 points in a season?
7. Who was the "Owl without a vowel"?
8. What college basketball player had the most rebounds in a season?
9. Who was the All-American basketball player who was killed in a freak accident with a live wire in his senior year?
10. What state produced the major college basketball scoring champion for five straight years in the 1950s.

Unbeaten LIU Ranked Only Third

By The Associated Press

The Long Island University Blackbirds, only unbeaten team among those ranked in The Associated Press small-college basketball poll, may have a tough time maintaining their perfect record Saturday night.

The Blackbirds, idle the past two weeks, next play Philadelphia Textile at the Palestra in Philadelphia. The Rams are unranked, but own a 10-1 mark and have lost only to second-ranked Kentucky Wesleyan, 76-65 on Dec. 13.

LIU, 11-0, held third place in the latest poll, accumulating 100 points on a basis of 10 for a first-place vote, 9 for second, 8 for third, etc. A total of 15 sports writers and broadcasters on a national panel participated in the balloting which was based on games through last Saturday.

Track Feud Legislation Introduced

WASHINGTON (AP) — Sen. Robert P. Griffin, R-Mich., says the time has come for a bill of rights for amateur athletes to protect them from the feuding of rival sports federations.

He announced he was introducing today a bill that would ban the disqualification from competition of any amateur athlete because he had engaged in a prior meet staged by a rival organization.

The legislation also would prevent sports associations from imposing what Griffin called unreasonable restraints on an athlete's freedom to participate in sports events.

An athlete could go into court for an injunction and violations of the bill would be punishable by a fine of up to $1,000 and six months' imprisonment.

Griffin's bill is aimed at the protracted feud between the NCAA and the AAU over control of track and field meets.

He said the feud "threatens to seriously cripple our Olympic team this year. Just as it has threatened to do in the past."

"The rights and interests of the individual athletes have been too long ignored," Griffin said in a prepared Senate speech. "The patience of the Congress and the American people is worn thin by those who have made athletes the innocent victims of a senseless war."

Kicker John Church beat out quarterback John Cartwright in the Navy football scoring race last season, 41 points to 40.

Bengals Looking Ahead To College Draft Picks

JACKSONVILLE, Fla. (AP) — The college draft is the next shopping stop for the American Football League's new-born Cincinnati Bengals.

Paul Brown's Bengals were stocked with 40 veteran players in the AFL's expansion draft here but the head coach and owner of the new club made it clear that he expected more talent to come out of the college market.

"One thing I won't do," said Brown, "is to mortgage my club by trading draft picks for older players."

The Bengals, who choose second behind only Minnesota in the Jan. 30 collegiate draft, are likely to go after a quarterback. There are three good ones available, UCLA's Gary Beban, Alabama's Kenny Stabler and Florida State's Kim Hammond.

Cincinnati already owns one signal caller—John Stofa. He was acquired in a pre-draft trade with Miami in which the Bengals surrendered two collegiate picks.

"It was a good trade for us," said Brown, "because we got an experienced quarterback, something you can't find everywhere."

Stofa, 25, sat out last season with a broken ankle and he'll have plenty of medical company in the Bengals' backfield.

Two of Brown's picks in the expansion draft are question marks because of severe leg injuries. Buffalo's Bobby Burnett, the AFL's rookie of the year in 1966, will try to bounce back from a broken right leg and Cookie Gilchrist of Denver hopes to shake the effects of surgery on his left knee.

The Bengals also got an all-star—linebacker Frank Buncom from San Diego—as well as the Chargers' place kicker—Dick Van Raaphorst.

Kansas City contributed two familiar names to the Bengals in split end Chris Burford and linebacker Sherrill Headrick, both AFL veterans.

Up front, Cincinnati got Buffalo's Gary Bugenhagen, an All-American at Syracuse two years ago, and Oakland's Richard Sligh, a 7-foot, 300-pound defensive tackle, among others.

2 Cars Damaged As They Ram On Slippery Stretch

Two autos were damaged, but no one was injured, in a mishap at Chester Wednesday about 1:50 p. m.

Police Chief Audley T. Campbell said cars driven by Clyde E. Snow, 58, of Chester RD 1 and George E. Pinkerton, 26, of 1123 White St., Wellsville, collided on the Fairview Rd., when both tried to stop but couldn't because of the slippery road surface.

Damage totaled about $225—$125 to Snow's 1967 sedan and nearly $100 to Pinkerton's 1960 model car. Snow was headed north and Pinkerton south, police said.

In a delayed report, police said a minor crash Monday night on the Fairview Rd. resulted in slight damage to both vehicles.

Patrolman Rex Cowey said a 1964 sedan driven by John Nick Flara, 38, of Chester RD 1 struck a 1965 auto driven by Nick Fleece, 28, of 191 2nd St., Chester, about 12:15 a. m.

Flara's car received the bulk of the damage — $100 — while Fleece reported $30.

Flara told Cowey he was headed down Fairview Rd., rounded a curve, saw Fleece's car in the road and swerved in a futile attempt to avoid a collision.

No charges were filed. Neither driver was injured.

Youth Waives Action In City Fraud Charge

John R. Veney, 19, of Ruth St. was bound over to the grand jury today in Municipal Court after waiving a preliminary hearing before Judge Samuel M. Chertoff on a charge he "aided, abetted or procured" a juvenile to obtain $200 from an East End man on a false promise to return valuables taken from the man's home in a burglary.

Veney had pleaded not guilty Jan. 3 through his counsel, Donald D. Shay. Robert C. Jackson, 21, of 824 Pennsylvania Ave. previously was held to the grand jury on a fraud charge in connection with the same case. Herman Powell, 17, of Erie St., identified as the youth who obtained $200 from Harry Cahill of 1090 Ohio Ave., is due for a hearing Feb. 15 before Juvenile Judge Louis Tobin.

2 Cars Damaged As They Ram On Slippery Stretch

Two autos were damaged, but no one was injured, in a mishap at Chester Wednesday about 1:50 p. m.

Police Chief Audley T. Campbell said cars driven by Clyde E. Snow, 58, of Chester RD 1 and George E. Pinkerton, 26, of 1123 White St., Wellsville, collided on the Fairview Rd., when both tried to stop but couldn't because of the slippery road surface.

Damage totaled about $225—$125 to Snow's 1967 sedan and nearly $100 to Pinkerton's 1960 model car. Snow was headed north and Pinkerton south, police said.

In a delayed report, police said a minor crash Monday night on the Fairview Rd. resulted in slight damage to both vehicles.

Patrolman Rex Cowey said a 1964 sedan driven by John Nick Flara, 38, of Chester RD 1 struck a 1965 auto driven by Nick Fleece, 28, of 191 2nd St., Chester, about 12:15 a. m.

Flara's car received the bulk of the damage — $100 — while Fleece reported $30.

Flara told Cowey he was headed down Fairview Rd., rounded a curve, saw Fleece's car in the road and swerved in a futile attempt to avoid a collision.

No charges were filed. Neither driver was injured.

Youth Waives Action In City Fraud Charge

John R. Veney, 19, of Ruth St. was bound over to the grand jury today in Municipal Court after waiving a preliminary hearing before Judge Samuel M. Chertoff on a charge he "aided, abetted or procured" a juvenile to obtain $200 from an East End man on a false promise to return valuables taken from the man's home in a burglary.

Veney had pleaded not guilty Jan. 3 through his counsel, Donald D. Shay. Robert C. Jackson, 21, of 824 Pennsylvania Ave. previously was held to the grand jury on a fraud charge in connection with the same case. Herman Powell, 17, of Erie St., identified as the youth who obtained $200 from Harry Cahill of 1090 Ohio Ave., is due for a hearing Feb. 15 before Juvenile Judge Louis Tobin.

Police said the three pretended falsely to Cahill that they would return $3,000 in U.S. Savings Bonds and other valuables taken in a burglary at his home Dec. 26.

Leading To Cease-Fire Discussion

LBJ Seeks To Achieve 'Basis For Peace Talks'

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON (AP) — President Johnson seeks to work out with North Vietnam a "basis for peace talks" which could lead to discussion of a complete cease-fire in the Vietnamese war as the first order of business.

The President proposed top priority for the cease-fire goal in his State of the Union message to Congress Wednesday night. But at the same time he made it emphatically clear his conditions for halting the bombing of North Vietnam in order to open talks must be met.

By contrast, North Vietnam still insists on an unconditional end to the bombing.

"There is no mystery about the questions which must be answered before the bombing is stopped," Johnson said. He did not specify the questions which in fact are already being put to Hanoi through diplomatic channels. But he is known to be seeking assurances that the talks would be prompt and probably productive and that North Vietnam would not try to pour reinforcements into the South after the bombing was halted—points he made in his address.

Johnson's formula for the bomb halt-peace talk deal was first put forth in a speech he made at San Antonio, Tex., last September. In paraphrasing it Wednesday night he appeared to ease his requirements in one respect and harden them in another.

At San Antonio Johnson said he assumed North Vietnam would not take advantage of the end of bombing to improve the Communist military position. Wednesday night he declared: "The other side must not take advantage of our restraint as they have in the past. This nation simply cannot accept anything less without jeopardizing the lives of our men and our allies."

Officials interpreted that assertion as a clear warning that if the North Vietnamese did start rushing reinforcements South after a halt Johnson would resume the bombing.

On these conditions for moving to get talks started, Johnson told the Congress "the bombing would stop if talks would take place promptly and with reasonable hopes they would be productive." Officials said there was no way to guarantee in advance that any talks would be productive so the words "reasonable hopes" were inserted to make this requirement easier to fulfill.

"If a basis for peace talks can be established on the San Antonio foundations," Johnson declared, "and it is my hope and my prayer that they can be—we would consult with our allies and with the other side to see if a complete cessation of hostilities—a really true cease-fire—could be made the first order of business.

"I will report at the earliest possible moment the results of these explorations."

Administration officials say privately they hold little hope the present efforts to come to terms with North Vietnam will be successful. Reports from Hanoi so far through diplomatic channels are said not to be encouraging.

Johnson himself said in his message the enemy continues to hope that "America's will to persevere can be broken. He is wrong. America will persevere."

The dominant belief of U.S. officials is that Hanoi is trying to build up new worldwide pressure on Johnson to call off the bombing without any reciprocal de-escalation of North Vietnam's part.

Geneva Conference Due Pact

U.S. And Soviet Agree On A-Ban Draft Treaty

GENEVA (AP) — The United States and the Soviet Union have reached agreement on a complete draft treaty to halt the spread of nuclear weapons, authoritative Western sources reported today.

The completed draft, including an article on international controls previously in dispute, is to be submitted to the 17-nation disarmament conference when it goes back to work later today after a Christmas recess.

It was believed that the Soviet-American agreement on controls would result in acceptance of the treaty by West Germany, Italy and other members of the Common Market except France.

No details of the agreement on controls were immediately available. U.S. sources said earlier differences had been narrowed down to a matter of several words during meetings in the past few days of the U.S. and Soviet cochairmen of the conference, Adrian S. Fisher and Alexei A. Roschchin.

But India's position, believed the key to acceptance of the treaty by most neutral and nonaligned nations, remains that the draft document does not clamp down hard enough on nations that already have nuclear weapons.

If the Indians refuse to sign, Pakistan almost certainly will refuse also. It is believed this will encourage Israel to hold back, and then none of the Arab countries would sign.

India has been the most determined critic of the treaty and has attracted the support of a number of nonaligned nations.

The U.N. General Assembly, which is to reconvene in the spring, has asked the conference to try to have a complete draft treaty ready by March 15.

The original draft, presented in Geneva last Aug. 24 by the United States and the Soviet Union, lacked Article 3 dealing wit hinternational inspection.

The Soviet Union has insisted that the International Atomic Energy Agency, which has a membership of more than 90 nations, be recognized as the only body competent to police a nonproliferation treaty.

The Common Market countries, led by West Germany and Italy, seek a role for Euratom, their own agency which controls nonmilitary atomic energy development within the six-nation group.

The Russians and the Americans were expected to compromise with an agreement in principle that the IAEA would be the main control body but that it should work out a mutually acceptable inspection system with Euratom.

The French never have taken their seat at the disarmament conference since it began in 1962 because of President Charles de Gaulle's determination to avoid anything that might hinder his development of French nuclear weapons.

ConCon Committee Reviews Proposal Concerning Voters

HARRISBURG (AP) — The Constitutional Convention's Judiciary Committee was reviewing today a proposal that would permit voters everywhere except in Philadelphia to decide whether they want community courts or magistrates.

The recommendation was put before the panel Wednesday by its subcommittee on Judicial Administration and Organization.

The subcommittee proposal would require voter approval in each of the state's judicial districts, except Philadelphia, to authorize the establishment of a community court to replace the minor judiciary.

Philadelphia would be required to abolish its present magistrates' court system and set up a community court under a provision affecting "judicial districts having a population of more than two million persons."

The proposal also would authorize the legislature to set up a system of magisterial districts for areas that reject community courts and eliminate the present fees in favor of a fixed salary for all members of the minor judiciary.

The full committee must approve the proposal before it is released to the convention for floor action.

In other action, the full committee gave tentative approval to subcommittee recommendations that would make 70 the mandatory retirement age for all judges and create a nine-member Judicial Board of Inquiry and Review.

Personalities In The News

MOSCOW (AP) — Pavel M. Litvinov, a leader in the youthful Soviet intellectual protest movement, says he will go to court to seek reinstatement in his job as a physics teacher.

Litvinov, grandson of the late Soviet foreign minister, said Wednesday his superiors at a Moscow chemical institute released him for "violations of labor discipline."

MEMPHIS, Tenn. (AP) — Elvis Presley will do his first television show since 1960 for the National Broadcasting Co. next year, the company announced Wednesday.

NBC Vice President Thomas W. Sarnoff revealed plans for a Presley special to the Memphis-Commercial-Appeal. Sarnoff said the program will be produced by Bob Finkel, executive producer of the Jerry Lewis Show.

The Presley special will be broadcast during the holiday season of 1969, either Thanksgiving, Christmas or New Year's Week.

KUALA LUMPUR, Malaysia (AP) — The Shah of Iran said today that differences in standards of living among various nations "are no longer tenable."

"In our world today the various human groups have become so closely joined together ...that differences in standards of material, cultural and spiritual life on earth are no longer tenable," the Shah said in an address at a special convocaion of the University of Malaya.

HOLLYWOOD (AP) — Spokesmen at Cedars of Lebanon Hospital said singer Abbe Lane was "just fine" after giving birth Wednesday to an 8-pound, 6-ounce boy.

Miss Lane and her husband, talent agent Perry Leff, also have an adopted son, Andrew, 2.

Indictments Set In Money Games

CHARLESTON (AP) — The Kanawha County grand jury has returned lottery indictments against an oil company and two large supermarket chains for the second time since November 1966.

Sun Oil Co., the Kroger Co. and the Great Atlantic & Pacific Tea Co. (A&P) are accused of conducting lotteries by use of promotional money games.

Similar indictments against the three firms were returned by a county grand jury 13 months ago, but were dismissed by Intermediate Court Judge George W. Wood. He ruled they were insufficient under the law.

The three defendants are charged with misdemeanors in the form of the following trade promotions — "Sunny Dollars" by Sun Oil Co., "Sure Thing" by Kroger and "Bonus Bingo" by A&P.

Leading To Cease-Fire Discussion

LBJ Seeks To Achieve 'Basis For Peace Talks'

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON (AP) — President Johnson seeks to work out with North Vietnam a "basis for peace talks" which could lead to discussion of a complete cease-fire in the Vietnamese war as the first order of business.

The President proposed top priority for the cease-fire goal in his State of the Union message to Congress Wednesday night. But at the same time he made it emphatically clear his conditions for halting the bombing of North Vietnam in order to open talks must be met.

By contrast, North Vietnam still insists on an unconditional end to the bombing.

"There is no mystery about the questions which must be answered before the bombing is stopped," Johnson said. He did not specify the questions which in fact are already being put to Hanoi through diplomatic channels. But he is known to be seeking assurances that the talks would be prompt and probably productive and that North Vietnam would not try to pour reinforcements into the South after the bombing was halted—points he made in his address.

Johnson's formula for the bomb halt-peace talk deal was first put forth in a speech he made at San Antonio, Tex., last September. In paraphrasing it Wednesday night he appeared to ease his requirements in one respect and harden them in another.

At San Antonio Johnson said he assumed North Vietnam would not take advantage of the end of bombing to improve the Communist military position. Wednesday night he declared: "The other side must not take advantage of our restraint as they have in the past. This nation simply cannot accept anything less without jeopardizing the lives of our men and our allies."

Officials interpreted that assertion as a clear warning that if the North Vietnamese did start rushing reinforcements South after a halt Johnson would resume the bombing.

On these conditions for moving to get talks started, Johnson told the Congress "the bombing would stop if talks would take place promptly and with reasonable hopes they would be productive." Officials said there was no way to guarantee in advance that any talks would be productive so the words "reasonable hopes" were inserted to make this requirement easier to fulfill.

"If a basis for peace talks can be established on the San Antonio foundations," Johnson declared, "and it is my hope and my prayer that they can be—we would consult with our allies and with the other side to see if a complete cessation of hostilities—a really true cease-fire—could be made the first order of business.

"I will report at the earliest possible moment the results of these explorations."

Administration officials say privately they hold little hope the present efforts to come to terms with North Vietnam will be successful. Reports from Hanoi so far through diplomatic channels are said not to be encouraging.

Johnson himself said in his message the enemy continues to hope that "America's will to persevere can be broken. He is wrong. America will persevere."

The dominant belief of U.S. officials is that Hanoi is trying to build up new worldwide pressure on Johnson to call off the bombing without any reciprocal de-escalation of North Vietnam's part.

Geneva Conference Due Pact

U.S. And Soviet Agree On A-Ban Draft Treaty

GENEVA (AP) — The United States and the Soviet Union have reached agreement on a complete draft treaty to halt the spread of nuclear weapons, authoritative Western sources reported today.

The completed draft, including an article on international controls previously in dispute, is to be submitted to the 17-nation disarmament conference when it goes back to work later today after a Christmas recess.

It was believed that the Soviet-American agreement on controls would result in acceptance of the treaty by West Germany, Italy and other members of the Common Market except France.

No details of the agreement on controls were immediately available. U.S. sources said earlier differences had been narrowed down to a matter of several words during meetings in the past few days of the U.S. and Soviet cochairmen of the conference, Adrian S. Fisher and Alexei A. Roschchin.

But India's position, believed the key to acceptance of the treaty by most neutral and nonaligned nations, remains that the draft document does not clamp down hard enough on nations that already have nuclear weapons.

If the Indians refuse to sign, Pakistan almost certainly will refuse also. It is believed this will encourage Israel to hold back, and then none of the Arab countries would sign.

India has been the most determined critic of the treaty and has attracted the support of a number of nonaligned nations.

The U.N. General Assembly, which is to reconvene in the spring, has asked the conference to try to have a complete draft treaty ready by March 15.

The original draft, presented in Geneva last Aug. 24 by the United States and the Soviet Union, lacked Article 3 dealing wit hinternational inspection.

The Soviet Union has insisted that the International Atomic Energy Agency, which has a membership of more than 90 nations, be recognized as the only body competent to police a nonproliferation treaty.

The Common Market countries, led by West Germany and Italy, seek a role for Euratom, their own agency which controls nonmilitary atomic energy development within the six-nation group.

The Russians and the Americans were expected to compromise with an agreement in principle that the IAEA would be the main control body but that it should work out a mutually acceptable inspection system with Euratom.

The French never have taken their seat at the disarmament conference since it began in 1962 because of President Charles de Gaulle's determination to avoid anything that might hinder his development of French nuclear weapons.

ConCon Committee Reviews Proposal Concerning Voters

HARRISBURG (AP) — The Constitutional Convention's Judiciary Committee was reviewing today a proposal that would permit voters everywhere except in Philadelphia to decide whether they want community courts or magistrates.

The recommendation was put before the panel Wednesday by its subcommittee on Judicial Administration and Organization.

The subcommittee proposal would require voter approval in each of the state's judicial districts, except Philadelphia, to authorize the establishment of a community court to replace the minor judiciary.

Philadelphia would be required to abolish its present magistrates' court system and set up a community court under a provision affecting "judicial districts having a population of more than two million persons."

The proposal also would authorize the legislature to set up a system of magisterial districts for areas that reject community courts and eliminate the present fees in favor of a fixed salary for all members of the minor judiciary.

The full committee must approve the proposal before it is released to the convention for floor action.

In other action, the full committee gave tentative approval to subcommittee recommendations that would make 70 the mandatory retirement age for all judges and create a nine-member Judicial Board of Inquiry and Review.

Personalities In The News

MOSCOW (AP) — Pavel M. Litvinov, a leader in the youthful Soviet intellectual protest movement, says he will go to court to seek reinstatement in his job as a physics teacher.

Litvinov, grandson of the late Soviet foreign minister, said Wednesday his superiors at a Moscow chemical institute released him for "violations of labor discipline."

MEMPHIS, Tenn. (AP) — Elvis Presley will do his first television show since 1960 for the National Broadcasting Co. next year, the company announced Wednesday.

NBC Vice President Thomas W. Sarnoff revealed plans for a Presley special to the Memphis-Commercial-Appeal. Sarnoff said the program will be produced by Bob Finkel, executive producer of the Jerry Lewis Show.

The Presley special will be broadcast during the holiday season of 1969, either Thanksgiving, Christmas or New Year's Week.

KUALA LUMPUR, Malaysia (AP) — The Shah of Iran said today that differences in standards of living among various nations "are no longer tenable."

"In our world today the various human groups have become so closely joined together ...that differences in standards of material, cultural and spiritual life on earth are no longer tenable," the Shah said in an address at a special convocaion of the University of Malaya.

HOLLYWOOD (AP) — Spokesmen at Cedars of Lebanon Hospital said singer Abbe Lane was "just fine" after giving birth Wednesday to an 8-pound, 6-ounce boy.

Miss Lane and her husband, talent agent Perry Leff, also have an adopted son, Andrew, 2.

Indictments Set In Money Games

CHARLESTON (AP) — The Kanawha County grand jury has returned lottery indictments against an oil company and two large supermarket chains for the second time since November 1966.

Sun Oil Co., the Kroger Co. and the Great Atlantic & Pacific Tea Co. (A&P) are accused of conducting lotteries by use of promotional money games.

Similar indictments against the three firms were returned by a county grand jury 13 months ago, but were dismissed by Intermediate Court Judge George W. Wood. He ruled they were insufficient under the law.

The three defendants are charged with misdemeanors in the form of the following trade promotions — "Sunny Dollars" by Sun Oil Co., "Sure Thing" by Kroger and "Bonus Bingo" by A&P.

Junior Editors Quiz on PEPPER

QUESTION: What is the story of pepper?

★ ★ ★

ANSWER: Pepper seems ordinary to us; it is so familiar sitting in its little shaker on the pantry shelf. Yet pepper has a most romantic story, beginning with the fact that it is a spice and comes from the Spice Islands of the Far East. These islands lie south of the Philippines and are colored black in our map. Pepper, which grows especially well on the islands of Java and Madura, is a tall vine with red berries. After the berries are dry, they turn dark and are than ground into pepper. We still use pepper and other spices; but they were especially important to Europeans and others before the days of the refrigerator. Not only did they give zest and flavor to dull-tasting foods but they tended to cover over the taste of food which had become stale or tainted. It was partly to reach these Spice Islands that Columbus and other explorers made their famous voyages. Later, the sturdy mariners of New England built sailing vessels, such as our artist has pictured, in order to sail to the Far East. Sea captains and owners made fortunes bringing back spices, china and silks to such towns as Salem and Marblehead. So spices contributed much to the prosperity of the growing American nation.

Junior Editors Quiz on PEPPER

QUESTION: What is the story of pepper?

★ ★ ★

ANSWER: Pepper seems ordinary to us; it is so familiar sitting in its little shaker on the pantry shelf. Yet pepper has a most romantic story, beginning with the fact that it is a spice and comes from the Spice Islands of the Far East. These islands lie south of the Philippines and are colored black in our map. Pepper, which grows especially well on the islands of Java and Madura, is a tall vine with red berries. After the berries are dry, they turn dark and are than ground into pepper. We still use pepper and other spices; but they were especially important to Europeans and others before the days of the refrigerator. Not only did they give zest and flavor to dull-tasting foods but they tended to cover over the taste of food which had become stale or tainted. It was partly to reach these Spice Islands that Columbus and other explorers made their famous voyages. Later, the sturdy mariners of New England built sailing vessels, such as our artist has pictured, in order to sail to the Far East. Sea captains and owners made fortunes bringing back spices, china and silks to such towns as Salem and Marblehead. So spices contributed much to the prosperity of the growing American nation.
